11. DISCUSSION AND POTENTIAL ACTION REGARDING FUNDING A PROPOSITION 1 GRANT APPLICATION FOR A POTENTIAL GROUNDWATER SUSTAINABILITY PLAN

Discussion:

Laine Carlson, a representative from Water Systems Consulting, Inc (WSC), gave the Board an update on this possible grant opportunity. She explained that we are still trying to reprioritize the basin as a low priority basin. President Ludecke asked about how the basin's grading system worked. Interim Administrator, Reggie Lamson, described the grading system. Vice President Green understood the reclassification, but since the ball is already rolling at our current, medium classification, will that affect any grant opportunities? Mr. Lamson replied that he was not sure if a reprioritization would affect the grant conditioning. Mr. Green asked about the effect of becoming a lower priority, if we would still be doing the plan. Mr. Lamson responded that there are still benefits to the agency even if we do not have to complete the actual plan. Big Bear Municipal Water District Legal Counsel, Keith Lemieux, suggested that we continue the agency even if reprioritized as low. Mrs. Carlson continued with her presentation and explained that in some cases, disadvantaged communities can have the cost sharing portion covered by the grant. Mr. Lemieux said we are in good positioning for grant funding.

Cash Management and Disbursement Policy

Date Established: May 30, 2018

Date Last Amended:

DRAFT

I. PURPOSE

The purpose of the Cash Management and Disbursement Policy is to ensure adequate controls are in place to safeguard the cash and investments of the agency.

II. ACCOUNTS IN SERVICE

The Bear Valley Basin Groundwater Sustainability Agency (BVBGSA), a joint powers authority (JPA), will maintain the following accounts for the purposes described below:

1. Operating Account for receiving deposits and disbursing payments for accounts payable.
2. Other cash accounts as deemed necessary by the Board of Directors.

III. ESTABLISHING NEW ACCOUNTS

New accounts must be authorized in advance by action of the Board of Directors.

IV. CLOSING ACCOUNTS

Existing accounts may be closed at the direction of the Administrator with concurrence from the Treasurer.

V. DISBURSEMENTS

The BVBGSA will make regular disbursements from the Operating Account for payment of vendors or participating member agencies of the JPA.

A. Positive Pay Authorization

The BVBGSA will establish Positive Pay Authorization for the BVBGSA's Operating Account. The Positive Pay Authorization service validates checks presented for payment from the BVBGSA's account using a data file uploaded to the bank's operation center. This system is used to mitigate the risk of fraudulent payments being processed.

The primary responsibility for uploading the Positive Pay data to the Bank will rest with the Treasurer's Assistant, however, alternates will be trained and authorized to use the system in the event the Treasurer's Assistant is not available. Individuals authorized to upload data to the Positive Pay Authorization system will be limited to the following:

1. Treasurer's Assistant (Primary)
2. Secretary's Assistant
3. Administrator
4. Treasurer

B. Signature Requirements

1. Check signers will include:
 - The Treasurer of the Board of Directors
 - Administrator
 - Three other Directors
2. Checks will be manually signed unless facsimile signatures are authorized by the Board of Directors by resolution.
3. Checks under \$5,000 may be processed with a single signature if a second signer is not available.
4. Checks of \$5,000 or more require two signatures.

C. Standard Disbursements

1. Vendor Payments/Member Agency Reimbursements

Vendor payments and/or member agency reimbursements will be made on a monthly basis. Checks will be processed on the first Thursday of each month and mailed on Friday.

2. Recurring Automated Clearing House (ACH)/Electronic Funds Transfers (EFT)

ACH filtering will be applied to all bank accounts that restrict the ability to electronically debit BVBGSA bank accounts without prior authorization of the Treasurer.

D. Manual Checks

3. Purpose

Manual checks may be prepared when a payment is due prior to the next regularly scheduled check run. Every effort will be made to ensure that payments are processed through the regular check run to avoid payments by manual check.

4. Authorities

Manual checks are subject to the same signature requirements as standard disbursements.

E. Electronic Payments/Wire Transfers

Non-recurring electronic payments must be authorized in advance under the same signature requirements as standard payments. Requests for electronic payments must be made one week prior to the required transfer date. The Administrator may waive the one week requirement at his/her discretion provided the required authorizations have been obtained.

VI. DEPOSITS

Bank deposits are prepared by the Treasurer's Assistant or his/her designee and reviewed by the Administrator.

VII. PETTY CASH

The BVBGSA may maintain a petty cash fund with an imprest balance of \$200. Disbursements from petty cash are typically for immediate needs and small amounts. The account is reconciled as needed, by the Secretary's Assistant, when the balance needs to be replenished. The reconciliation and supporting detail is reviewed by the Treasurer's Assistant prior to replenishing.

VIII. RECONCILIATION

All bank statements shall be reconciled to the corresponding general ledger account on a monthly basis. Reconciliations are to be completed within 10 business days of receipt of bank statement.

IX. INVESTMENTS

When possible, excess cash balances may be swept into an investment fund approved by the Board of Directors by resolution.

SUPPORT FOR CITY OF BIG BEAR LAKE, DWP SAWMILL WELL PUMPING PLANT PROJECT

RECOMMENDATION:

GSA staff recommends that the Bear Valley Basin Groundwater Sustainability Agency provide a letter of support (attached) for the grant funding opportunity that the City of Big Bear Lake, Department of Water and Power (DWP) has been identified to receive for the construction of the Sawmill Well Pumping Plant Project.

DISCUSSION/FINDINGS:

GSA staff recommends the BVBGSA support the Department of Water Resources (DWR) Prop 1 grant funding for the Sawmill Well Pumping Plant Project. The Sawmill Well Pumping Plant Project will improve groundwater basin management and drought resiliency within the Bear Valley Basin (BVB). The BVB consists of 11 sub-basins with 2 water purveyors – both of which are member agencies of the BVBGSA. The Sawmill Well Pumping Plant Project will be installed in the currently underutilized West Baldwin sub-basin and water will be pumped to the Angels Camp Reservoir, which can serve the majority of the Bear Valley community. The DWP maintains two water system interties with Big Bear City Community Services District (BBCCSD), and in times of need, DWP can provide water to CSD via these interties. By drawing water from an under-utilized sub-basin, and being able to distribute it to both water purveyors, it will allow us to rest sub-basins that are being used at or near their perennial yield.

Subject: Support for SGWP Grant Funding – Basin Resiliency: Sawmill Well Pumping Plant

To whom it may concern:

The Bear Valley Basin Groundwater Sustainability Agency (BVBGSA) is writing to provide support for the grant opportunity that the City of Big Bear Lake, Department of Water and Power (DWP) has been identified to receive grant funding to construct the Sawmill Well Pumping Plant. The BVBGSA is developing the Groundwater Sustainability Plan (GSP) for the basin. The Sawmill Well Pumping Plant will be included in the GSP, as it enhances the water sustainability of the Bear Valley Basin (BVB).

The Sawmill Well Pumping Plant will improve water management and drought resiliency within the BVB. The BVB consists of 11 sub-basins with 2 water purveyors – both of which are member agencies of the BVBGSA. The well pumping plant will be installed in the underutilized West Baldwin sub-basin and water will be pumped to the Angels Camp Reservoir, which can serve the majority of the Bear Valley. The DWP maintains two water system interties with Big Bear City Community Services District (CSD), and in times of need, DWP can provide water to CSD via these interties. By drawing water from an under-utilized sub-basin, and being able to distribute it to both water purveyors, it will allow both water purveyors to rest sub-basins that are being used at or near their perennial yield.

Please accept this endorsement of the Sawmill Well Pumping Plant project.

**PROVIDE FINANCIAL SUPPORT TO SAWPA REGARDING PROPOSITION 1
GRANT APPLICATION CONSULTANT**

RECOMMENDATION:

Staff recommends the BVBGSA provide partial funding (not to exceed \$10,000) for SAWPA's consultant to review DWR Prop 1 grant applications.

DISCUSSION/FINDINGS:

SAWPA is responsible for distributing approximately \$52,000,000 of DWR Prop 1 funding for planning and construction projects. SAWPA has published an RFP for consulting service to provide a non-bias review of DWR Prop 1 grant applications and make award recommendations to SAWPA. SAWPA has requested funding support for this effort from water agencies located within the Santa Ana Watershed boundaries. The BVBGSA's four member agencies have supported SAWPA's regional projects in the past and request the Boards approval to partially fund this project. Each member agency will be responsible to fund 25% (up to \$2,500) of the BVBGSA's proportionate share of the consultant's cost.

NOW, THEREFORE, based on the foregoing Recitals, the AGENCY and BBARWA agree as follows:

1. Scope of Services. BBARWA shall be responsible for:

(i) Administration. Tasks to support the Authority and its Board of Directors including, for example, recording meeting minutes and other Board Secretary related duties. If included in the Scope of Services, DWP may designate one of its senior financial officers (such as its chief financial officer, director of finance or finance manager) to assist the Treasurer of the Authority.

(ii) Finance. Specified tasks, as set forth in the Scope of Services, related to monitoring, reporting, and analysis required to conduct financial activities of the Authority.

(iii) Other Services. Any other specified administrative or other tasks related to support for the Authority and its Board of Directors.

2. Performance of BBARWA's Obligations.

a. Location of Services. Whenever possible, all services to be provided by BBARWA under this Agreement shall be carried out from one of the member agency's offices.

b. BBARWA's Employees. When appropriate, BBARWA shall assign some of its employees to perform the obligations set forth in Section 1 of this Agreement ("BBARWA Employees") as part of their regular duties for BBARWA. The Parties acknowledge and agree that at all times BBARWA Employees shall remain under the exclusive control of the BBARWA Board of Directors, a supervisor or manager that reports directly to the BBARWA General Manager or the BBARWA Board of Directors, or a management employee subject to the exclusive control of the BBARWA Board of Directors, such as the BBARWA General Manager. Subject to the AGENCY's power to set the overall budget for compensation of independent contractors, the AGENCY shall not have any right to control the manner or means in which the BBARWA Employees perform services under this Agreement. Rather, BBARWA shall have the sole and exclusive AGENCY to do the following:

(i) Make decisions regarding the hiring, retention, discipline or termination of BBARWA Employees. The AGENCY will have no discretion over those functions.

(ii) Determine the wages to be paid to BBARWA Employees, including any pay increases. These amounts shall be determined in accordance with

BBARWA's published publicly available pay schedule and shall be subject to changes thereto approved by the BBARWA board of directors.

In the event BBARWA retains the services of a contractor or subcontractor to assist BBARWA in the performance of its duties, BBARWA shall require the contractor or subcontractor to procure and maintain a policy of comprehensive public liability and property damage insurance, at its sole cost and expense, adequate to protect the AGENCY.

3. BBARWA's Compensation

The AGENCY is funded by each of the four member agencies. Periodically, each member agency will provide in-kind services to the AGENCY. These in-kind services are expected to balance out over time, so individual monthly billing from each agency will not be required.

a. Commencement and Termination of Services. BBARWA shall begin providing services under this Agreement beginning on July 1, 2017. BBARWA shall provide services under this Agreement for a term of five years; provided, however, that either Party may terminate this Agreement, without cause, upon 60 days prior written notice. After the expiration of the five-year term, this agreement shall also automatically renew for consecutive one-year periods unless earlier terminated.

b. Compliance with Law. BBARWA shall comply with all applicable federal, state, and local laws, rules, and regulations. If compliance is impossible for reasons beyond its control, BBARWA shall immediately notify the AGENCY in writing of the fact and the reasons therefor.

c. Independent Contractor. BBARWA shall perform the services required under this Agreement as an independent contractor, and not as an employee of AGENCY. BBARWA shall use its own employees, contractors and subcontractors in the performance of the services required by this Agreement and those employees, contractors and subcontractors shall not be deemed employees, contractors or subcontractors of the AGENCY. BBARWA Employees assigned to provide services under this Agreement on behalf of BBARWA shall be under the exclusive control of BBARWA and shall remain employees of BBARWA and shall not be employees of the AGENCY.

d. Dispute Resolution. Any disputes regarding this Agreement shall be subject to the Dispute Resolution provisions under Section 16 of the Joint Powers Agreement.

e. Assignment. Neither this Agreement nor any of the duties or obligations hereunder shall be assigned by BBARWA without the prior written consent of the AGENCY.

f. Further Acts. Each Party agrees to execute and deliver all documents and perform all further acts that may be reasonably necessary to carry out the provisions of this Agreement.

g. Amendment. This Agreement may be amended in writing by mutual agreement of the Parties.

IN WITNESS WHEREOF, the Parties have executed this Agreement to be effective on the date first above written.

WHEREAS, the Board of Directors of the AGENCY desires to utilize MWD’s services, pursuant to Section 15 of the Joint Powers Agreement and Sections 3.8 and 6.2 of the AGENCY’s Bylaws, for the purpose of providing certain services to the AGENCY; and

WHEREAS, MWD has represented to the AGENCY that it possesses the necessary skills, qualifications, personnel, and equipment to provide the services identified in this Agreement.

NOW, THEREFORE, based on the foregoing Recitals, the AGENCY and MWD agree as follows:

1. Scope of Services. MWD shall be responsible for:

(i) Administration. Tasks to support the Authority and its Board of Directors including, for example, recording meeting minutes and other Board Secretary related duties. If included in the Scope of Services, DWP may designate one of its senior financial officers (such as its chief financial officer, director of finance or finance manager) to assist the Treasurer of the Authority.

(ii) Finance. Specified tasks, as set forth in the Scope of Services, related to monitoring, reporting, and analysis required to conduct financial activities of the Authority.

(iii) Other Services. Any other specified administrative or other tasks related to support for the Authority and its Board of Directors.

2. Performance of MWD's Obligations.

a. Location of Services. Whenever possible, all services to be provided by MWD under this Agreement shall be carried out from one of the member agency's offices.

b. MWD's Employees. When appropriate, MWD shall assign some of its employees to perform the obligations set forth in Section 1 of this Agreement ("MWD Employees") as part of their regular duties for MWD. The Parties acknowledge and agree that at all times MWD Employees shall remain under the exclusive control of the MWD Board of Directors, a supervisor or manager that reports directly to the MWD General Manager or the MWD Board of Directors, or a management employee subject to the exclusive control of the MWD Board of Directors, such as the MWD General Manager. Subject to the AGENCY's power to set the overall budget for compensation of independent contractors, the AGENCY shall not have any right to control the manner or means in which the MWD Employees perform services under this Agreement. Rather, MWD shall have the sole and exclusive AGENCY to do the following:

(i) Make decisions regarding the hiring, retention, discipline or termination of MWD Employees. The AGENCY will have no discretion over those functions.

(ii) Determine the wages to be paid to MWD Employees, including any pay increases. These amounts shall be determined in accordance with MWD's

published publicly available pay schedule and shall be subject to changes thereto approved by the MWD board of directors.

MWD shall also maintain Workers' Compensation Insurance for its employees and agents with limits as prescribed by law. MWD waives all subrogation rights against the AGENCY and its other Member Agencies. Written evidence in a form acceptable to the AGENCY of all insurance coverages shall be provided to the AGENCY. Subject to any other obligation of the AGENCY, MWD shall fully indemnify and save the AGENCY free and harmless from any and all claims, demands, losses, fines, penalties and/or liabilities of any kind or nature, asserted or otherwise, that may arise from, be occasioned by, or be otherwise related to, the performance or nonperformance by MWD of the services, duties, and obligations provided for in this Agreement. In the event MWD retains the services of a contractor or subcontractor to assist MWD in the performance of its duties, MWD shall require the contractor or subcontractor to procure and maintain a policy of comprehensive public liability and property damage insurance, at its sole cost and expense, adequate to protect the AGENCY.

3. MWD's Compensation

The AGENCY is funded by each of the four member agencies. Periodically, each member agency will provide in-kind services to the AGENCY. These in-kind services are expected to balance out over time, so individual monthly billing from each agency will not be required.

RECOMMENDATION FOR ENVIRONMENTAL/PRELIMINARY ENGINEERING FOR BVWSP (INFORMATION ONLY)

RECOMMENDATION:

GSA staff recommends the Board receive and file.

DISCUSSION/FINDINGS:

The GSA team has been working diligently to secure funding for The Bear Valley Water Sustainability Project (Project). In the interest of making the Project more competitive for grants and to ensure that this project continues to move forward the member agencies have agreed to begin the first major phase of this project. Having a project that has the environmental clearance and a flushed out treatment process will make our project attractive for future funding programs. For example, USDA loan/grant funding requires the environmental work to be complete before you can submit your final application. This first phase scope includes Preliminary Engineering to the extent needed to support environmental review and funding applications and will result in a certified EIR/EA and several completed funding applications. The other key goals in this phase is to build community engagement and stakeholder buyin.

Big Bear Area Regional Wastewater Agency (BBARWA) sought a proposal from Water Systems Consulting, Inc. (WSC) to provide this next phase of the work. WSC completed the facilities plan for this project, prepared successful grant applications to partially fund the facilities plan and fully fund the GSP. WSC has good relationships with several of the funding agencies. They have developed the scope of services that complies with the requirements for the California Environmental Quality Act (CEQA)/ Environmental Assessment (EA) and will provide enough detail to solidify the preliminary engineering. Their estimate for these services is \$1,700,000 over the next two years. The first year is estimated to cost \$1 million. BBARWA staff will be approaching their board to award a contract. GSA team will seek authorization to provide cost sharing for this portion of the work. On May 22, 2018, the DWP Board of commissioners authorized \$250,000 to partially fund this phase of the project. At a future GSA meeting, memorandum of understanding/ agreements will be brought to the GSA board regarding the cost sharing and reimbursement process.

DWR BASIN REPRIORITIZATION UPDATE (INFORMATION ONLY)

RECOMMENDATION:

GSA staff recommends the Board receive and file.

DISCUSSION/FINDINGS:

The Bear Valley Basin is currently prioritized as “Medium” by the Department of Water Resources (DWR). DWR is the State agency responsible for implementing the Sustainable Groundwater Management Act of 2014. After the original prioritization rankings were released by DWR, several basins submitted comments, which prompted DWR to evaluate the basin boundaries and they determined that some basin boundaries required revision. DWR revised the boundaries of several basins. The revised basin boundaries caused DWR to revise the prioritization rankings for all of the basins in California.

DWR recently released the draft reprioritization list for California’s basins. Bear Valley Basin is now listed as “Very Low”. BVBGSA staff reviewed DWR’s prioritization web page and noticed some inconsistencies. The web page shows the eight prioritization categories and Bear Valley Basin’s score for each category. Bear Valley Basin’s new prioritization score is 16.5, which is above 15.0, so the Bear Valley Basin should be prioritized as “Medium”. BVBGSA staff notified DWR of this inconsistency and DWR is reviewing it. Regardless of DWR’s reprioritization results, BVBGSA can utilize the \$177,000 DWR Prop 1 grant to prepare a GSP, as long as the GSP is completed by 2022.
