BIG BEAR AREA REGIONAL WASTEWATER AGENCY

Regular Board Meeting Agenda October 23, 2024 at 5:00 p.m. 121 Palomino Drive, Big Bear City, California

1. CALL TO ORDER

2. PLEDGE OF ALLEGIANCE

3. <u>APPROVAL OF AGENDA</u>

4. <u>PUBLIC FORUM</u>

Public testimony is permitted at this time only on consent calendar items and other matters not listed on the posted agenda that are within the subject matter jurisdiction of the Agency. State law prohibits the Agency from taking action on any items not listed on the posted agenda. Public comment on items listed on the posted agenda will be taken at the time each item is called for discussion.

5. PRESENTATION AND INTRODUCTION

- **5.A.** Audit Report for the Fiscal Year Ended June 30, 2024
- **5.B.** John Russo 1-year recognition

6. <u>INFORMATION/COMMITTEE REPORTS</u>

6.A. General Manager's Report

7. CONSENT CALENDAR

All matters listed on the Consent Calendar will be enacted by one motion at the appropriate time. There will be no separate discussion of these items. If a detailed discussion is necessary, any Governing Board Member may request that an item be removed from the Consent Calendar and considered separately.

- **7.A.** Approval of the Meeting Minutes from the September 25, 2024 Regular Meeting
- **7.B.** Monthly Disbursements Report for September Informational
- **7.C.** Investment Report Identifying Agency Investments and Reporting Interest Income for September Informational

8. <u>ITEMS REMOVED FROM CONSENT CALENDAR</u>

9. OLD BUSINESS

None

10. <u>NEW BUSINESS – DISCUSSION/ACTION ITEMS</u>

- **10.A.** Annual Report for the Fiscal Year Ended June 30, 2024
- **10.B.** Reallocate \$125,000 from the Capital Budget for the OAC Roof Project
- **10.C.** Adjourn the November 27th and December 25th 2024 Regular Board Meetings and Schedule a Special Meeting

11. <u>COMMENTS AND ANNOUNCEMENTS</u>

- **11.A.** General Manager Comments
- **11.B.** Governing Board Member Comments

12. <u>ADJOURNMENT</u>

In compliance with the Americans with Disabilities Act and Government Code Section 54954.2, if you need special assistance to participate in an Agency meeting or other services offered by the Agency, please contact the Agency at (909) 584-4018. Notification at least 48 hours prior to the meeting or time when services are needed will assist Agency staff in assuring that reasonable arrangements can be made to provide accessibility to the meeting or service.

Copies of staff reports or other written documentation relating to each item of business referred to on this agenda are on file in the office of the Big Bear Area Regional Wastewater Agency and are available for public inspection during normal business hours.

Visit www.bbarwa.org to view and/or print the Agenda Package.

Big Bear Area Regional Wastewater Agency

Jim Miller – Vice-Chair Rick Herrick – Director John Russo - Director Kendi Segovia - Director Larry Walsh – Director

AGENDA ITEM: 5.A.

MEETING DATE: October 23, 2024

TO: Governing Board of the Big Bear Area Regional Wastewater Agency

FROM: David Lawrence, P.E., General Manager

PREPARED BY: Christine Bennett, Finance Manager

SUBJECT: Audit Report for the Fiscal Year Ended June 30, 2024

BACKGROUND & DISCUSSION:

The Agency engaged the services of Rogers, Anderson, Malody & Scott, LLP ("RAMS"), Certified Public Accountants, to perform the annual audit for the fiscal year ended June 30, 2024.

Please find attached 1) a letter addressing the Governing Board and summarizing the audit (communication required to those in charge of governance) and 2) the Annual Comprehensive Financial Report (a bound copy to follow). It should be noted that in the attached letter to the Governing Board, certain Significant Risks have been listed that include 1) management's override of internal controls over financial reporting, and 2) management's failure to recognize revenue in accordance with Generally Accepted Accounting Principles ("GAAP"). These are common, presumptive risks and are not specific to the Agency nor have any instances of these occurred or been noted by the auditors.

RAMS has issued an unmodified opinion, stating that the financial statements for the fiscal year ended June 30, 2024 present fairly, in all material respects, the financial position of the Agency and are free of material misstatement (please see the Independent Auditor's Report in the Annual Comprehensive Financial Report).

FINANCIAL IMPACT:

There is no financial impact.

RECOMMENDATION:

Informational

We have audited the financial statements of Big Bear Area Regional Wastewater Agency (the Agency) as of and for the year ended June 30, 2024, and have issued our report thereon dated October 3, 2024. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated April 23, 2024, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the Agency solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, our firm, and our network firms have complied with all relevant ethical requirements regarding independence.

Significant Risks

We have identified the possibility of the following significant risks:

Management's override of internal controls over financial reporting – Management override of internal controls is the intervention by management in handling financial information and making decisions contrary to internal control policy.

Revenue recognition – Revenue recognition is a generally accepted accounting principle that refers to the conditions under which an entity can recognize a transaction as revenue. Auditing standards indicate that recognizing revenue is a presumed fraud risk and usually classified as a significant risk in most audits.

These significant risks are presumptive in most audits and merit attention by the auditors due to the direct impact over financial reporting and internal control processes. Although identified as significant risks, we noted no matters of management override of controls or deviations from generally accepted accounting principles which caused us to modify our audit procedures or any related matters which are required to be communicated to those charged with governance due to these identified risks.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the Agency is included in Note 1 to the financial statements. The Agency adopted GASB Statement No. 100, *Accounting Changes and Error Corrections* during 2024. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates and related disclosures are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

The most sensitive accounting estimates affecting the financial statements are:

Management's estimate of the fair value of investments is based on information provided by financial institutions. We evaluated the key factors and assumptions used to develop the fair value of investments in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of capital asset depreciation is based on historical estimates of each capitalized item's useful life. We evaluated the key factors and assumptions used to develop the estimated useful lives in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the net pension liability/net OPEB liability and related deferred inflows and deferred outflows is based on actuarial reports provided by independent actuaries. We evaluated the key factors and assumptions used to develop the estimate in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of leases receivable, deferred inflows of resources related to leases, and lease amortization is based on present value calculations using certain terms and assumptions in the lease agreements in accordance with generally accepted accounting principles. Management's estimate of lease liabilities, right-to-use assets, and asset amortization is based on present value calculations using certain terms and assumptions in the lease agreements and estimated useful lives of assets in accordance with generally accepted accounting principles. We evaluated the key factors and assumptions used to develop the lease related estimates in determining that it is reasonable in relation to the financial statements taken as a whole.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting Big Bear Area Regional Wastewater Agency's financial statements relate to:

The disclosure of fair value of investments in Note 3 to the financial statements represents amounts susceptible to market fluctuations.

The disclosure of accumulated depreciation in Note 5 to the financial statements is based on estimated useful lives which could differ from actual useful lives of each capitalized item.

The disclosure of net pension liability and related deferred inflows and deferred outflows in Note 8 to the financial statements is based on actuarial assumptions. Actual future liabilities and deferrals may vary from disclosed estimates.

The disclosure of the net OPEB liability and related deferred inflows and deferred outflows in Note 9 to the financial statements is based on actuarial assumptions. Actual future liabilities/assets may vary from disclosed estimates.

The disclosure of leases receivable, deferred inflows of resources related to leases, lease amortization, leases liabilities, right-to-use assets, and asset amortization in the basic financial statements is based on certain terms and assumptions in the lease agreements which could differ from actual amounts.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole. There were no uncorrected material misstatements.

In addition, professional standards require us to communicate to you all material, corrected misstatements that were brought to the attention of management as a result of our audit procedures. None of the misstatements identified by us as a result of our audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the Agency's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management, which are included in the attached letter dated October 3, 2024.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the Agency, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the Agency's auditors.

Other Information in Documents Containing Audited Financial Statements

Pursuant to professional standards, our responsibility as auditors for other information in documents containing the Agency's audited financial statements does not extend beyond the financial information identified in the audit report, and we are not required to perform any procedures to corroborate such other information. However, in accordance with such standards, we have applied certain limited procedures to Management's Discussion and Analysis, as well as, the Schedule of the Agency's Proportionate Share of the Plan's Net Pension Liability and Related Ratios as of the Measurement Date, the Schedule of Pension Plan Contributions, the Schedule of Changes in the Net OPEB Liability and Related Ratios, and the Schedule of OPEB Plan Contributions. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the Required Supplementary Information (RSI) and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on supplementary information, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Our responsibility also includes communicating to you any information which we believe is a material misstatement of fact. Nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the financial statements.

This report is intended solely for the information and use of the Board of Directors and management of the Agency and is not intended to be and should not be used by anyone other than these specified parties.

Rogers, Anderson, Malochy e Scott, LLP.

October 3, 2024

Rogers, Anderson, Malody & Scott, LLP 735 E. Carnegie Drive, Suite 100 San Bernardino, CA 92408

This representation letter is provided in connection with your audit of the financial statements of Big Bear Area Regional Wastewater Agency (the Agency) as of June 30, 2024 and for the year then ended, and the related notes to the financial statements, for the purpose of expressing an opinion on whether the basic financial statements present fairly, in all material respects, the financial position, results of operations, and cash flows, of the Agency in accordance with accounting principles generally accepted for governments in the United States of America (U.S. GAAP).

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information such that, in the light of surrounding circumstances, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

We confirm that, to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves as of October 3, 2024.

Financial Statements

- We have fulfilled our responsibilities, as set out in the terms of the audit engagement dated April 23, 2024, for the preparation and fair presentation of the financial statements of the various opinion units referred to above in accordance with U.S. GAAP.
- We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
- We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.
- We acknowledge our responsibility for compliance with the laws, regulations, and provisions of contracts and grant agreements.
- We have reviewed, approved, and taken responsibility for the financial statements and related notes.
- We have a process to track the status of audit findings and recommendations.
- We have identified and communicated to you all previous audits, attestation engagements, and other studies related to the audit objectives and whether related recommendations have been implemented.
- Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable.

- All events subsequent to the date of the financial statements and for which U.S. GAAP requires adjustment or disclosure have been adjusted or disclosed.
- The effects of all known actual or possible litigation and claims have been accounted for and disclosed in accordance with U.S. GAAP.
- If applicable, all component units, as well as joint ventures with an equity interest, are included and other joint ventures and related organizations are properly disclosed.
- All components of net position, net investment in capital assets, restricted, and unrestricted are properly classified and, if applicable, approved.
- All funds and activities are properly disclosed.
- Our policy regarding whether to first apply restricted or unrestricted resources when an expense is
 incurred for purposes for which both restricted and unrestricted net position are available is
 appropriately disclosed and net position is properly recognized under the policy.
- All revenues within the statement of Revenues, Expenses and Changes in Net Position have been properly classified as to operating or non-operating.
- All expenses have been properly classified.
- Deposit and investment risks have been properly and fully disclosed.
- Capital assets are properly capitalized, reported, and if applicable, depreciated.
- All required supplementary information is measured and presented within the prescribed guidelines.
- With regard to investments and other instruments reported at fair value:
 - The underlying assumptions are reasonable and they appropriately reflect management's intent and ability to carry out its stated courses of action.
 - The measurement methods and related assumptions used in determining fair value are appropriate in the circumstances and have been consistently applied.
 - The disclosures related to fair values are complete, adequate, and in accordance with U.S.
 GAAP.
 - There are no subsequent events that require adjustments to the fair value measurements and disclosures included in the financial statements.
- With respect to nonattest services provided, we have performed the following:
 - Made all management decisions and performed all management functions;
 - Assigned a competent individual to oversee the services;
 - Evaluated the adequacy of the services performed;
 - Evaluated and accepted responsibility for the result of the service performed; and
 - Established and maintained internal controls, including monitoring ongoing activities.

Information Provided

- We have provided you with:
 - Access to all information, of which we are aware that is relevant to the preparation and fair
 presentation of the financial statements of the various opinion units referred to above, such as
 records, documentation, meeting minutes, and other matters;
 - Additional information that you have requested from us for the purpose of the audit; and
 - Unrestricted access to persons within the entity from whom you determined it necessary to obtain audit evidence.
 - A written acknowledgement of all the documents that we expect to issue that will be included in the annual report and the planned timing and method of issuance of that annual report;

- A final version of the annual report (including all the documents that, together, comprise the annual report) in a timely manner prior to the date of the auditor's report.
- The financial statements and any other information included in the annual report are consistent with one another, and the other information does not contain any material misstatements.
- All transactions have been recorded in the accounting records and are reflected in the financial statements.
- We have no knowledge of any fraud or suspected fraud that affects the entity and involves:
 - Management;
 - Employees who have significant roles in internal control; or
 - Others where the fraud could have a material effect on the financial statements.
- We have no knowledge of any allegations of fraud, or suspected fraud, affecting the entity's financial statements communicated by employees, former employees, vendors, regulators, or others.
- We are not aware of any pending or threatened litigation, claims, and assessments whose effects should be considered when preparing the financial statements and we have not consulted legal counsel concerning litigation, claims, or assessments.
- We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware.
- There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in accounting, internal control, or financial reporting practices.
- The Agency has no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.
- We have disclosed to you all guarantees, whether written or oral, under which Big Bear Area Regional Wastewater Agency is contingently liable.
- We have disclosed to you all significant estimates and material concentrations known to management that are required to be disclosed in accordance with GASB Statement No. 62 (GASB-62), Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.
- We have identified and disclosed to you the laws, regulations, and provisions of contracts and grant
 agreements that could have a direct and material effect on financial statement amounts, including legal
 and contractual provisions for reporting specific activities in separate funds.
- There are no:
 - Violations or possible violations of laws or regulations, or provisions of contracts or grant
 agreements whose effects should be considered for disclosure in the financial statements or as
 a basis for recording a loss contingency, including applicable budget laws and regulations.
 - Unasserted claims or assessments that our lawyer has advised are probable of assertion and must be disclosed in accordance with GASB-62.
 - Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by GASB-62.
 - Continuing disclosure consent decree agreements or filings with the Securities and Exchange Commission and we have filed updates on a timely basis in accordance with the agreements (Rule 240, 15c2-12).
- The Agency has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset or future revenue been pledged as collateral, except as disclosed to you.

- We have complied with all aspects of grant agreements and other contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
- We believe that the actuarial assumptions and methods used to measure pension and other
 postemployment benefit liabilities, deferrals and costs for financial accounting purposes are appropriate
 in the circumstances.

Supplementary Information in Relation to the Financial Statements as a Whole

- With respect to the supplementary information accompanying the financial statements:
 - We acknowledge our responsibility for the presentation of the supplementary information in accordance with applicable criteria.
 - We believe the supplementary information, including its form and content, is fairly presented in accordance with any applicable criteria.
 - The methods of measurement or presentation have not changed from those used in the prior period.
 - When the supplementary information is not presented with the audited financial statements, management will make the audited financial statements readily available to the intended users of the supplementary information no later than the date of issuance by the entity of the supplementary information and the auditor's report thereon.
 - We acknowledge our responsibility to include the auditor's report on the supplementary information in any document containing the supplementary information and that indicates the auditor reported on such supplementary information.
 - We acknowledge our responsibility to present the supplementary information with the audited financial statements or, if the supplementary information will not be presented with the audited financial statements, to make the audited financial statements readily available to the intended users of the supplementary information no later than the date of issuance by the entity of the supplementary information and the auditor's report thereon.
- We believe that the actuarial assumptions and methods used to measure pension and other
 postemployment benefit liabilities, deferrals and costs for financial accounting purposes are appropriate
 in the circumstances.

Required Supplementary Information

- With respect to the various required supplementary information accompanying the financial statements:
 - We acknowledge our responsibility for the presentation of the required supplementary information in accordance with the applicable GASB statements.
 - We believe the required supplementary information, including its form and content is measured and fairly presented in accordance with the applicable GASB statements.
 - The methods of measurement or presentation have not changed from those used in the prior period.

Use of a Specialist

• We agree with the findings of specialists in evaluating the pension and other postemployment benefit liabilities and have adequately considered the qualifications of the specialist in determining the amounts and disclosures used in the financial statements and underlying accounting records. We did not give or cause any instructions to be given to specialists with respect to the values or amounts derived in an attempt to bias their work, and we are not otherwise aware of any matters that have had an impact on the independence or objectivity of the specialists.

Letter of Transmittal

BIG BEAR AREA REGIONAL WASTEWATER AGENCY

P.O. Box 517, 122 Palomino Drive, Big Bear City, CA 92314-0517 (909) 584-4018

October 3, 2024

Chairperson, Members of the Governing Board of Directors, and the Public:

We are pleased to submit the Annual Comprehensive Financial Report (the Financial Report) of the Big Bear Area Regional Wastewater Agency (the Agency) for the fiscal year ended June 30, 2024. California Government Code Section 26909(a)(2) requires the Agency, as a joint powers agency and operating under special district law, to publish and file with the State Controller an audit report conforming to generally accepted auditing standards within 12 months of the end of the fiscal year or years under examination.

Management is responsible for the accuracy and reliability of the information contained within the report, based upon a comprehensive framework of internal controls that have been established for this purpose. The cost of internal controls should not exceed anticipated benefits; therefore, the objective is to provide reasonable assurance, rather than absolute assurance, that the statements are free of any material misstatement. To the best of management's knowledge, the enclosed data is accurate in all material respects and presents fairly the results of operations and the financial position of the Agency.

The auditing firm of Rogers, Anderson, Malody & Scott, LLP have conducted an independent audit of the Financial Report. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Agency are free of material misstatement. The auditing firm has issued an unmodified opinion on the Agency's financial statements for the fiscal year ended June 30, 2024. The independent auditor's report is located at the beginning of the Financial Section of the Financial Report on page 1.

Management's Discussion and Analysis (MD&A) follows the independent auditor's report and provides an introduction, summary, and analysis of the Agency's financial performance and basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it to enhance the readers' understanding of the information provided.

The Annual Comprehensive Financial Report

This report is presented in three sections:

Introduction, which includes this letter of transmittal, principal officials, and organization chart.

Financial, which includes the independent auditor's report on the financial statements, Management's Discussion and Analysis, the basic financial statements, and the required supplementary information.

Statistical, which includes information related to financial trends, revenue capacity, debt capacity, demographic and economic conditions, and multi-year operational data.

Profile of the Big Bear Area Regional Wastewater Agency

Legal and Organizational Structure

The Agency is an enterprise, wastewater treatment facility which was established in 1974 and organized as a joint powers agency, currently operating under special districts law. The Agency was created as a management agency, obligated to provide services to three agencies: the Big Bear City Community Services District, the City of Big Bear Lake, and the County of San Bernardino Service Area 53 B (the Member Agencies). The Agency's service area encompasses a rural mountain community of approximately 79,000 acres and 25,000 sewer connections.

Governing Body

The Agency is governed by a five-member governing board appointed annually by the governing bodies of its three Member Agencies.

Services

The Agency provides wastewater collection, treatment, and disposal services to the Big Bear area, serving approximately 25,000 commercial and residential customers. On average, the Agency treats approximately 800 million gallons of wastewater annually at its treatment plant. The Member Agencies convey wastewater from their respective sewer systems into the Agency's interceptors and into the treatment plant. The Agency's facilities operate under permit from the California Regional Water Control Board, Santa Ana Region, Order No. R8-2005-0044. The Agency's 640-acre disposal site is located northeast of the Agency in the desert community of Lucerne Valley. The effluent from the treatment plant is pumped to Lucerne Valley for irrigation of fodder and fiber crops under permit from the California Regional Water Quality Control Board, Colorado River Basin, Order No. R7-2021-0023. The disposal site is leased to an independent contractor.

Mission

The Agency's mission is to efficiently collect, treat, and beneficially reuse wastewater and biosolids in an environmentally and fiscally responsible manner.

To carry out this mission, the Agency will meet the needs of the regulatory agencies and our community in an open and cooperative manner.

Budget Process

Pursuant to the operating agreement between the Agency and its Member Agencies, an annual budget must be adopted by May 1 of each year. By California State Law, the Agency is required to adopt its budget by July 1 of each year.

The budget process involves long-range planning, which is essential to financial management and maximizing ratepayer value. The Agency completes a five-year financial forecast each year. The first year of the forecast is the Agency's annual budget. The budget provides a solid picture of the Agency's expectations for the next twelve months and is an accountability tool for management and reflects its commitment to performance. The forecast is the Agency's best estimate of performance beyond the next twelve months. It is based on historical trend analysis, economic conditions, inflationary expectations, and other relevant information that may impact future performance. Each year, the Agency reviews and updates its 20-year capital plan which includes 1) the scheduled maintenance and replacement of Agency assets and 2) any planned improvement or capacity expansion projects.

The long-range financial plan indicates the adequacy of the Agency's revenues to meet debt covenant tests, fund balance targets, and capital requirements and is a critical tool in maintaining stable and adequate rates.

Economic Condition

The Agency's economic condition is determined based on the financial outlook or expected, future financial strength of the Agency. The Agency has maintained stable operations by 1) managing operating expenses to inflationary growth over time, 2) long-term planning for asset maintenance and 3) modifying its rates as needed. Further, based on long-range planning, the outlook for the Agency is good, with adequate revenue to cover its costs, maintain and improve its facilities, meet its debt service requirements as they come due, and fund the minimum balance requirements associated with its contingency, liquidity, capital improvement and debt service reserve funds. Factors affecting the Agency's economic condition include the local economy, long-range financial planning, financial policies and practices, and major initiatives.

Local Economy

The local area is a four-season, resort community located in the San Bernardino Mountains of Southern California. The economy is primarily driven by tourists and a large, part-time population of second homeowners. The food service, accommodation, recreation, and entertainment industries are the largest employers followed closely by educational, healthcare, and social services. The Agency serves an area that experiences relatively low growth with new connections averaging less than 1% over the long term or approximately 63 connections per year. Over the past 10 years new connections to the system have been low with the exception of the Covid19 migration which saw an influx of new construction and the construction of a new hotel during the current fiscal year. The annual average of new connections for the last ten years is approximately 57 per year, not including nonrecurring multi-unit connections. An overview of the general demographics of the area can be found in the Statistical Section.

Long-Term Financial Planning

Rates are set at levels to meet operating and maintenance costs, capital costs (both debt service and capital expenditures), and minimum reserve fund balance requirements. The Agency uses a combination of cash and debt to fund its capital investments and to maintain stable rates. The rate adjustment for FY 2025 is 18% with 18% rate adjustments projected annually through FY 2028, and a 4.5% rate adjustment projected for FY 2029. These rate adjustments include rate collection for the Replenish Big Bear Project. Annual rate adjustments, not including the Replenish

Big Bear Project, average 4% through FY 2028 and reflect the expected cost of inflation during the projection period. These rate and inflation assumptions were developed during the FY 2025 budget process.

The Agency has focused on managing costs to inflationary levels which has resulted in relatively stable rates over the years. Adequate depreciation funding, cost management, long-range planning, and a history of effective financial management have positioned the Agency to maintain stable and competitive rates and to adequately fund future capital projects. With the addition of the Replenish Big Bear Project, a water reclamation project, it has become necessary to adjust rates above inflationary levels for FY 2025 through FY 2028 for project construction costs and additional debt service requirements. At the completion of project construction, rate adjustments are expected to follow inflationary adjustments and remain stable for future years.

The Agency's capital projects during the next five-year period through FY 2029 total approximately \$81.6 million (approximately \$16.3 million annual average) and through FY 2044 total approximately \$114.6 million (approximately \$5.7 million annual average). Over the long term, under the current capital improvement plan, approximately 13% of the Agency's capital investment is for maintenance with the remaining 87% for non-maintenance improvements.

Over the next five years, the Agency's major capital projects (in approximate amounts) include \$1.1 million in asphalt and paving improvements on Palomino Drive and the administrative and plant parking areas; \$336,000 for the replacement of transportation equipment; \$2.3 million for treatment plant equipment and rehabilitation which includes the clarifier 1 rehabilitation and miscellaneous equipment rebuilds/replacements and building improvements; \$539,000 for the replacement of mobile pumping, information technology, and electrical equipment; and \$150,000 for the interceptor system. Capital project costs for the Replenish Big Bear Project through FY 2028 are anticipated to be approximately \$77 million, a portion of which will be offset by grant proceeds of approximately \$27 million.

Financial Policies and Practices

The Agency has adopted financial policies related to debt, investment, and designated reserve funds. These policies guide the Agency through its budgeting and planning processes and provide a framework for the financial management of the Agency. The Agency maintains multiple designated reserve funds, including contingency (for variances from the budget), liquidity (for working capital), debt (for debt service) and capital and replacement (for current and future capital investment requirements). Target fund balances are set annually and are based on the Agency's operational and capital requirements. The Agency has not adopted a formal policy on a balanced budget. The Agency's practice is to balance the budget through the planned use of or contribution to the Agency's capital and replacement fund and structure its rates to cover its average recurring expenses. All references to Agency funds and designated fund balances are related to reserve funds maintained by the Agency for various operating and capital-related purposes.

FY 2025 Major Initiatives

Force Main Sliplining – The force main is likely being impacted by hydrogen sulfide gas during low flow conditions due to the collection at the top of the pipe, which can cause corrosion. A video inspection was performed and showed signs of slight corrosion. Additionally, there have been three sewage leaks on this line since March of 2023. In response to this and to prevent further damage to the pipe, approximately 1,500 ft of lining will be installed in the force main.

Replenish Big Bear – Replenish Big Bear is a forward-looking water reclamation project that protects the community's water supplies through advanced water treatment processes and will produce millions of gallons of clean water every year. This water will be used to replenish the Big Bear Valley's water supplies. The Agency began the preliminary engineering and environmental work for the Replenish Big Bear Program in FY 2019. Pre-construction activities began in FY 2023 which include engineering, environmental, pilot facility planning and implementation, and design work. Final design is scheduled to be completed in FY 2025 with construction beginning during that FY. The Governing Board approved rate adjustments, subject to annual review, through FY 2028 to support costs associated with the project.

Awards and Acknowledgement

Awards

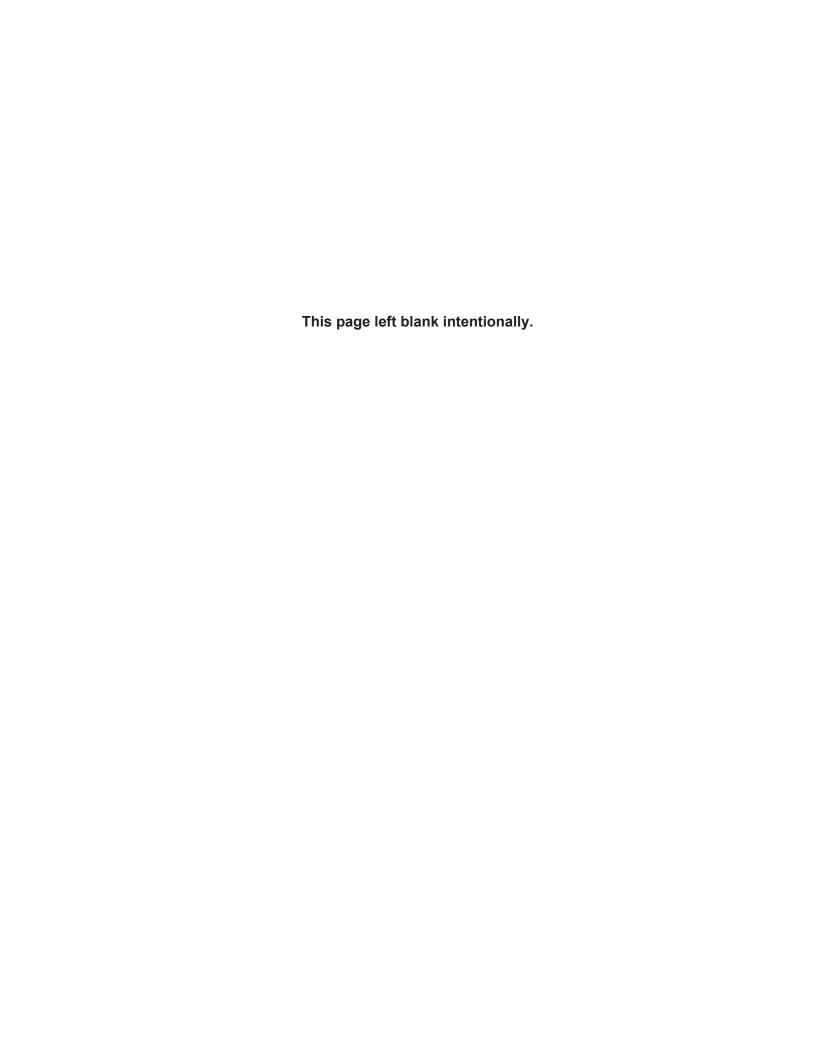

The Government Finance Officers Association of the United States and Canada (GFOA) awarded the **Certificate of Achievement for Excellence in Financial Reporting** to the Big Bear Area Regional Wastewater Agency for its annual comprehensive financial report for the fiscal year ended June 30, 2023. This is the 12th consecutive year BBARWA has received the award. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and will be submitting to the GFOA to determine its eligibility for another certificate.

Acknowledgements

We wish to extend our appreciation to our independent auditors, Rogers, Anderson, Malody & Scott, LLP for their assistance in the report preparation and to the Agency's Governing Board of Directors for its support in upholding the highest standards of professionalism and financial accountability in the management of the Big Bear Area Regional Wastewater Agency.

Big Bear Area Regional Wastewater Agency
Big Bear City, California

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Big Bear Area Regional Wastewater Agency (the Agency), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the Agency, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America, as well as accounting systems prescribed by the State Controller's Office and state regulations governing special districts.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, (Government Auditing Standards) and the State Controller's *Minimum Audit Requirements for California Special Districts*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Agency and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Prior Year Comparative Information

We have previously audited the Agency's 2023 financial statements, and we expressed an unmodified opinion in our report dated October 5, 2023. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2023 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* (GAS) will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Agency's basic financial statements. The schedule of revenues, expenses, and changes in net position – budget vs. actual is presented for purposes of additional analysis and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report (ACFR). The other information comprises the introductory section and the statistical section but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

Rogers, Anderson, Malody e Scott, LLP.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 3, 2024 on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

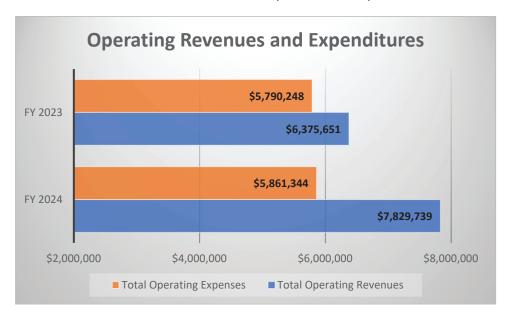

San Bernardino, California October 3, 2024

Management's Discussion and Analysis

This section of the financial statements for the Big Bear Area Regional Wastewater Agency provides a discussion of the Agency's financial performance for the fiscal year ended June 30, 2024 (FY 2024). These comments should be read in conjunction with and are a supplement to the financial statements identified in the accompanying table of contents.

Financial Overview

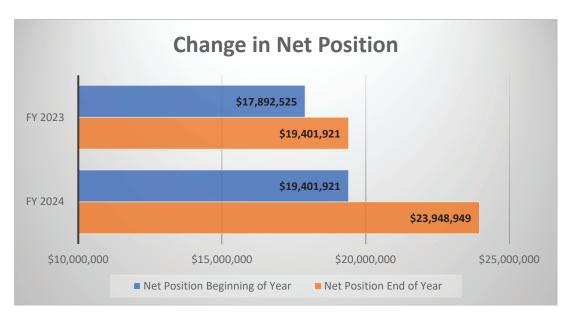

The Agency's financial performance improved compared to the prior year. Operating revenues outpaced operating expenses with operating revenues increasing by 23% and operating expenses increasing by 1%. This resulted in an increase in operating income during the period of \$1,382,992. When combined with improved nonoperating income (expense) primarily due to Replenish Big Bear grant reimbursements and higher interest income, the result is a 23% increase in net position for the period.

The Agency's operating revenues increased \$1,454,088 or 23% compared to the prior period. The increase was primarily due to a 22.5% increase in sewer user fees, which included an increase for the Replenish Big Bear project debt service reserve and an increase in connections to the system. Operating expenses increased just \$71,096 or 1% over the prior period.

The Agency's nonoperating revenues increased \$1,618,309 or 230% over the prior period largely due to higher grant revenue (related to the Replenish Big Bear project) and an increase in interest income. Nonoperating expenses increased just \$562 or less than 1%. The prior period expenditures included financing costs for the Replenish Big Bear short term loan. Additionally, there was a reduction in interagency expenses compared to the prior period. This was partially offset by an increase in interest expense with the addition of the Replenish Big Bear short term loan. Overall, net nonoperating revenues (expenses) had a positive variance of \$1,617,747 for the period.

Capital contributions (connection fee revenue) increased \$246,620 or 100% during the period primarily as a result of the addition of 62 connections for the Hampton Inn. Current period connections were 118, an increase of 59 connections. The connection fee (the rate charged per connection) remained unchanged during the period at \$4,180 per connection.

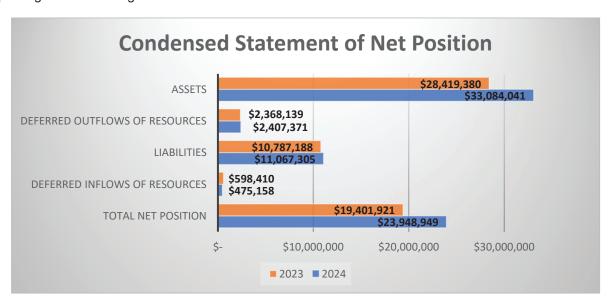

Net position increased \$4,547,028 over the year-ago period due to the items noted above.

The Agency had positive cash flow during the period of \$712,186. The Agency generated approximately \$3 million in cash from operations and investment income. These sources of cash were offset in part by capital expenditures and debt service of approximately \$2.3 million. Capital expenditures were partially offset by grant proceeds for the Replenish Big Bear project.

There are no restrictions, commitments, or other limitations that significantly affect the availability of resources for future use.

Statement of Net Position

The statement of net position presents information on the Agency's assets (including deferred outflows of resources) and liabilities (including deferred inflows of resources), with the difference reported as net position. The increases or decreases in net position, over time, may indicate whether the Agency's financial position is improving or deteriorating.

CONDENSED STATEMENT OF NET POSITION

			2024 vs 2023	
	As of June 30,		Increase	%
	2024	2023	(Decrease)	<u>Change</u>
Assets:		_		
Current and other assets	\$ 13,585,574	\$ 12,179,923	\$ 1,405,651	12%
Capital assets, net	19,430,494	16,106,862	3,323,632	21%
Other noncurrent assets	67,973	132,595	(64,621)	-49%
Total assets	33,084,041	28,419,380	4,664,661	16%
Deferred Outflows of Resources	2,407,371	2,368,139	39,232	2%
Liabilities:				
Current liabilities	1,350,597	1,100,897	249,700	23%
Noncurrent liabilities	9,716,708	9,686,291	30,417	0%
Total liabilities	11,067,305	10,787,188	280,117	3%
Deferred Inflows of Resources	475,158	598,410	(123,252)	-21%
Net Position:				
Net investment in capital assets	13,994,395	10,249,423	3,744,972	37%
Unrestricted	9,954,554	9,152,498	802,056	9%
Total net position	\$ 23,948,949	<u>\$ 19,401,921</u>	<u>\$ 4,547,028</u>	<u>23%</u>

Summary

The Agency's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by \$23,948,949 at fiscal year-end. This increased \$4,547,028 compared to the prior year driven by an increase in current assets (cash and investments) and capital assets, offset by increases in liabilities such as accounts payable and accrued expenses as well as OPEB liabilities.

Assets

Total assets increased \$4,664,661 or 16% over the prior period and was the result of an increase across most asset types. The increase in current assets was driven by higher cash and investments resulting from higher cash flow during the period. Higher cash flow was driven by an increase in sewer user fees to build required reserves for the Replenish Big Bear project and an increase in interest revenue. The increase in noncurrent assets was primarily driven by an increase in capital assets in progress. Capitalized investment for the period was \$524,822 compared to \$858,504 in asset depreciation and amortization.

Deferred Outflows of Resources

Deferred outflows of resources increased \$39,232 or 2% and primarily reflects the net change in pension and OPEB-related adjustments associated with changes in investment experience and contributions related to these plans.

Liabilities

Total liabilities increased \$280,117 or 3% from the prior period. The increase was primarily driven by an increase in current liabilities of \$249,700 reflecting higher accounts payable and accrued expenses. Noncurrent liabilities increased by \$30,417 with Pension and OPEB liabilities increasing by \$453,147 as a result of lower market returns than expected on invested assets related to these plans for the twelve-months ended June 30, 2023 (measurement period). Long-term debt decreased as a result of scheduled principal amortization.

Deferred Inflows of Resources

Deferred inflows of resources decreased \$123,252 or 21% driven mostly by pension adjustments associated with changes in investment experience and a decrease in lease liability.

Net Position

There are two components of the Agency's net position. The largest portion, net investment in capital assets, represents the Agency's investment in capital assets net of any related debt (debt used to finance the purchase of capital assets) and reflects the Agency's investment in property, plant, and equipment. The remaining unrestricted net position is available to meet the Agency's ongoing obligations. The Agency's overall net position is simply a function of its assets and deferred outflows of resources minus its liabilities and deferred inflows of resources. During the period, the Agency's net position increased by \$4,547,028 primarily due to increases in assets and decreases in liabilities for the period, which have been previously noted.

Statement of Revenues, Expenses and Changes in Net Position

This statement reflects the Agency's revenues and expenses, with the difference between the two reported as change in net position. The order of presentation reflects the Agency's primary operations, with operating revenues and operating expenses presented first, nonoperating revenues and nonoperating expenses presented second, and capital contributions presented last. The change in net position shows the residual revenue (on an accrual basis) that is available to contribute toward current and future capital (both investment and debt service) and reserve funding and is an indication of the adequacy of the Agency's rates.

CONDENSED STATEMENT OF REVENUES. EXPENSES AND CHANGES IN NET POSITION

-			2024 vs	: 2023
	As of	June 30,	Increase	%
	2024	2023	(Decrease)	Change
Operating revenues	\$ 7,829,739	\$ 6,375,651	\$ 1,454,088	23%
Nonoperating income	2,322,624	704,315	1,618,309	230%
Total revenues	10,152,363	7,079,966	\$3,072,397	43%
Operating expenses	5,002,841	4,896,558	106,283	2%
Depreciation and amortization	858,503	893,690	(35,187)	-4%
Nonoperating expenses	237,231	236,669	562	0%
Total expenses	6,098,575	6,026,917	71,658	1%
Net income (loss) before capital contributions	4,053,788	1,053,050	3,000,738	285%
Capital contributions	493,240	246,620	246,620	100%
Replenish Big Bear capital contributions		209,726	(209,726)	-
Change in net position	\$ 4,547,028	\$ 1,509,395	\$3,037,633	201%
Net Position, Beginning of Year	\$ 19,401,921	\$ 17,892,525	\$1,509,396	8%
Net Position, Beginning of Year	\$ 23,948,949	\$ 19,401,921	\$4,547,028	23%

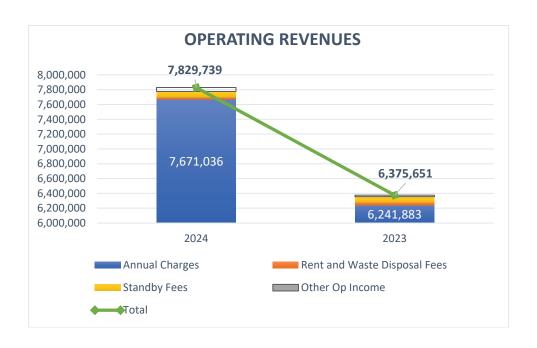

Summary

The Agency's operating revenues increased \$1,454,088 or 23% and total expenses, including depreciation and amortization, increased \$71,658 or 1%, resulting in an increase in operating income of \$1,382,992 or 236% when compared to the prior period. This increase, with the addition of improved nonoperating income (expense), resulted in a \$3,037,633 increase in change in net position for the period when compared to the prior period.

Operating Revenues

				2024 vs 2023		
		As of J	lune 3	0,	Increase	%
	2024 2		2023	(Decrease)	Change	
Operating revenues:						
Annual charges	\$	7,671,036	\$	6,241,883	\$1,429,153	23%
Standbyfees		75,297		77,590	(2,293)	-3%
Rent and waste disposal fees		30,010		36,359	(6,348)	-17%
Other revenue		53,396		19,819	33,577	<u>169%</u>
Total operating revenues	\$	7,829,739	\$	6,375,651	\$1,454,088	<u>23%</u>

Changes in operating revenues are largely driven by changes in annual charges which make up 98% of total operating revenues. Annual charges are based on the established sewer user fee set by the Governing Board and the number of equivalent dwelling units connected to the system. Sewer user fees increased 22.5%, which included an increase for required reserves and debt financing of the Replenish Big Bear Project. When combined with higher connections the total increase in annual charges was 23%, with the overall increase in operating revenues at 23%. The increase in other revenue for the period was primarily related to an insurance claim reimbursement and the sale of green energy credits generated by the solar production facility.

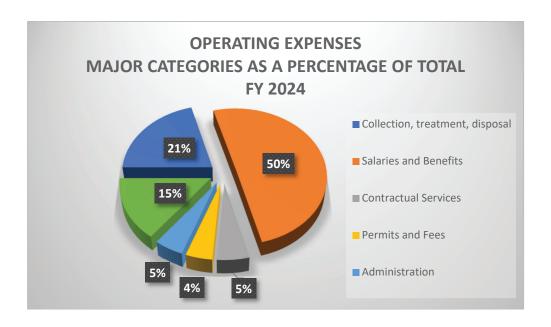

Operating Expenses

			2024 vs 2023		
	As of Ju	ıne 30,	Increase	%	
	2024	2023	(Decrease)	Change	
Operating expenses:		_			
Collection, treatment, disposal	\$ 1,216,104	\$ 1,371,813	\$ (155,709)	-11%	
Salaries and benefits	2,944,982	2,807,640	137,342	5%	
Contractual services	307,965	204,883	103,082	50%	
Permits and fees	254,556	239,056	15,500	6%	
Administration	279,234	273,165	6,069	2%	
Depreciation and amortization	858,503	893,690	(35,187)	<u>-4%</u>	
Total operating expenses	\$ 5,861,344	\$ 5,790,248	\$ 71,096	<u>1%</u>	

Total expenses increased \$71,658 or 1% compared to the year-ago period. This increase was distributed across most expense accounts with the exception of collection, treatment, and disposal and depreciation and amortization. The greatest increases experienced were in salaries and benefits and contractual services. The increase in salaries and benefits was largely due to accounting adjustments associated with pension and OPEB expense as well as increases in benefits and salaries and wages. The increase in contractual services was primarily due to higher engineering and legal services as well as HVAC and electrical repairs and maintenance costs. Further discussion regarding variances to operating expenses continues below.

Collection, Treatment and Disposal Expense

Collection, treatment, and disposal expense decreased \$155,709 or 11% under the prior period. This decrease was primarily driven by decreases in repairs and replacements and utilities partially offset by increases in sludge removal and chemicals.

- Repairs and Replacement expense decreased \$190,931 or 56%. The cost of higher repairs and
 replacements in the prior period related to emergency repairs were one time expenditures. The current
 did not experience the level of emergency repairs as the prior period did.
- **Utilities expense** decreased \$20,405 or 42% primarily due to a decrease in the removal and disposal of solid waste from the scum bed when compared to the prior period.
- **Sludge removal expense** increased \$33,617 or 13% over the prior period. During the current period 4,413 tons of sludge was removed versus 3,927 tons during the prior period, an increase of 486 tons.
- Chemicals expense increased \$13,617 or 13% when compared to the prior year. The increase was due to an increase in polymer and odor control disinfectant expenses.

Salaries and Benefits Expense

Salaries and benefits expense increased \$137,342 or 5% over the prior period. Excluding accounting adjustments related to GASB 68 and GASB 75, salaries and benefits expense increased \$148,486 or 5%.

Salaries and Benefits Expense Excluding Accounting Adjustments

2024 vs 2023

	As of June 30,		Increase	%	
	2024	2023	(Decrease)	Change ¹	
Salaries and benefits	\$ 2,944,982	\$ 2,807,640	\$ 137,342	5%	
Accounting Adjustments	(36,200)	(47,344)	11,144	+	
Salaries and benefits before adjustments	\$ 2,908,782	\$ 2,760,296	\$ 148,486	<u>5%</u>	

¹ Percent change is not provided if either the latest period or the year-ago period contains a loss or negative number. If actual performance is improved, a "+" is given. If worse, a "-" is given.

The increase in salaries and benefits expense (excluding accounting adjustments) largely reflects a \$35,343 or 2% increase in salaries and wages, a \$25,408 or 3% increase in employee benefits expense, and a \$72,976 or 46% increase in OPEB benefits. Salaries and wages increased as a result of annual merit and cost-of-living adjustments partially offset by employees that were on medical disability during a portion of the current period. Employee benefits expense increased due to higher pension expenses. OPEB benefits increased as a result of an increase in the required employer contributions per the valuation report.

Contractual Services

Contractual services expense increased \$103,082 or 50% over the prior period. The increase was driven by increases in legal services due to a significant increase in records requests, engineering services which included planning support for the force main rehabilitation project, unexpected repairs to the administration building HVAC system, and an increase in electrical repairs and maintenance.

Permits and Fees

Permits and fees expense increased \$15,500 or 6% largely due to increases imposed by the permitting agencies.

Administration Expense

Administration expense was up \$6,069 or 2% from the prior period reflecting a slight increase in property tax, insurance, and education and training. Education and training experienced the largest increase, \$3,027, as more employees took advantage of the training opportunities provided.

Depreciation and amortization

Depreciation and amortization expense decreased \$35,187 or 4% from the prior period and was due to a lower level of depreciable assets as large assets become fully depreciated.

Nonoperating Revenues (Expenses)

Nonoperating revenues (expenses) had a positive variance of \$1,617,746 compared to the prior period primarily due to higher nonoperating revenues driven by higher grant proceeds (higher by \$1.2 million) and higher interest income (higher by \$429,103). Higher grant proceeds in the current period are related to grant reimbursements associated with the Replenish Big Bear Project.

NONOPERATING REVENUES (EXPENSES)

			2024 vs. 2	2023
	As of Ju	une 30,	Increase	%
	2024	2023	(Decrease)	Change ¹
Nonoperating revenues:		_		
Interest Income	\$556,822	\$127,719	\$429,103	336%

Amortization of bond cost	5,029	<u>5,031</u>	<u>-2</u>	0%
Total nonoperating expenses	237,231	236,669	562	0%
Total nonoperating revenues (expenses)	\$2,085,392	\$467,646	\$1,617,746	346%

¹ Percent change is not provided if either the latest period or the year-ago period contains a loss or negative number. If the actual performance is improved when compared to the prior period, a "+" is given. If actual performance is worse when compared to the prior period, a "-" is given.

Capital Contributions (Connection Fee Revenue)

Connection fee revenue increased \$246,620 or 100% over the prior year as the number of connections increased to 118 from 59 in the prior period, a change of 59 connections. The primary factor for the increase was the addition of 62 connections for the Hampton Inn. The Agency's connection fee remained unchanged at \$4,180 per connection.

CAPITAL CONTRIBUTIONS (CONNECTION FEE REVENUE)

					2024 V	s 2023
	 As of June 30,			ncrease	%	
	 2024		2023	<u>(D</u>	ecrease)	Change
Capital Contributions	\$ 493,240	\$	246,620	\$	246,620	100%
Number of Connections	118		59		59	100%

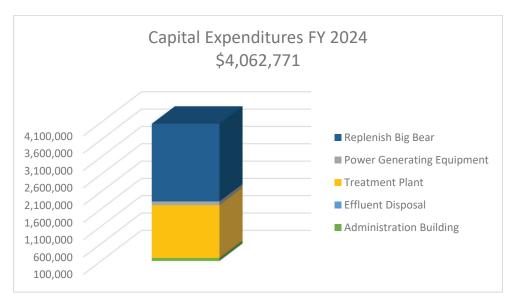

Capital Asset Activity

The Agency's net capital assets increased by \$3,232,632 or 21% during the period. The net increase in capital assets was due to capital expenditures greater than annual depreciation expense and asset disposals for the period. The Agency's capital expenditures during the period totaled \$4,062,771, compared to annual depreciation expense of \$858,504 and net asset disposals of \$35,154.

CAPITAL ASSETS, NET

				2024 vs 2023		
	As of J	une 30,	Increase	%		
	2024	2023	(Decrease)	Change		
Capital assets, net	\$ 19,430,494	\$ 16,106,862	\$ 3,323,632	21%		

During fiscal year 2024 capital investments totaled \$4,062,771. Of this amount, \$3,537,949 remained in progress at year end and was primarily related to the Replenish Big Bear Project and the Agency's Grit System Rehabilitation Project. The remaining \$524,822 in capital investment for the period was related to the replacement of treatment plant equipment, upgrades to the boardroom audio/visual equipment, and the administrative building roof replacement. The Agency carried over approximately \$4.5 million in capital expenditures planned for FY 2024 that will be completed in FY 2025.

For additional information related to the Agency's capital assets, see note 4 in the accompanying financial statements.

Long-Term Debt, Net Pension and Net OPEB Liability Activity

The Agency decreased its long-term debt during the period by \$425,903 or 7% which reflects regularly scheduled debt amortization. The Agency's net OPEB liability increased by \$162,684 or 13% and the Agency's pension liability increased by \$290,463 or 10%. The net change in OPEB and pension liabilities reflects the net change during the period in the respective plan assets and plan liabilities.

OUTSTANDING DEBT, NET

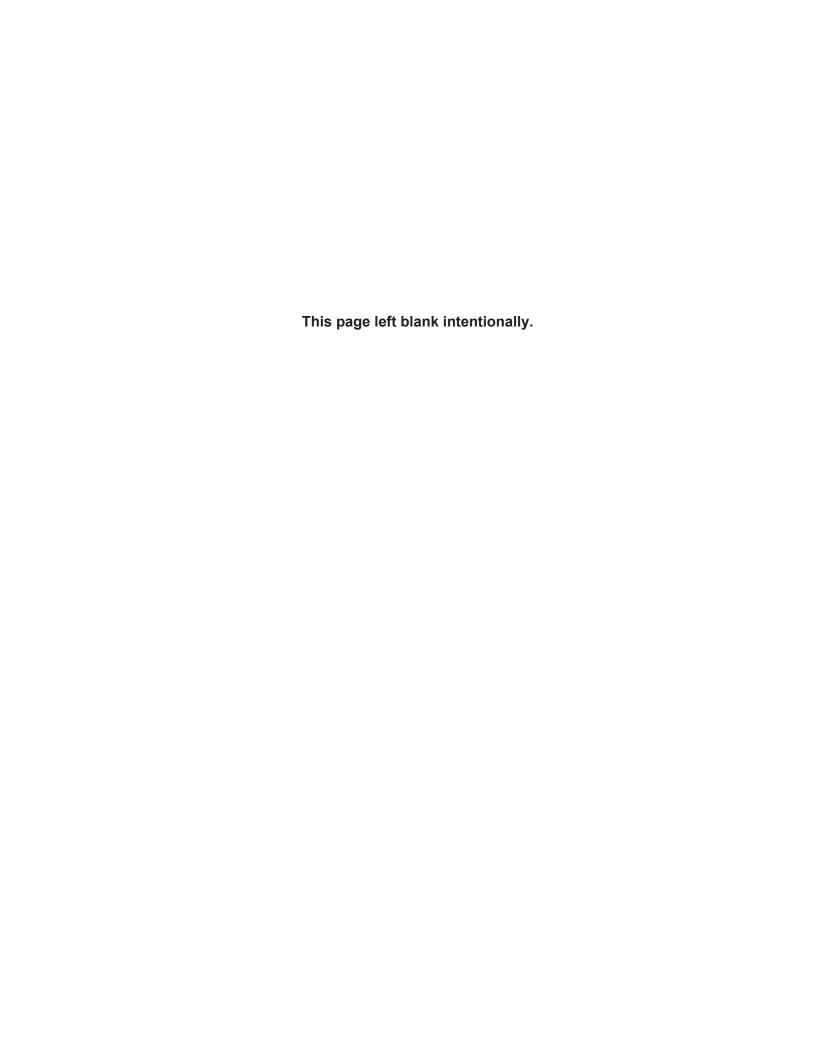

2024 vs 2023

	As of June 30,				Increase	%	
		2024		2023	_	(Decrease)	Change

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 1: Reporting entity and significant accounting policies

(a) Description of the reporting entity

The Big Bear Area Regional Wastewater Agency (the "Agency") is a joint powers agency comprised of three members: the Big Bear City Community Services District, the City of Big Bear Lake, and the County of San Bernardino on behalf of the County Service Area 53, Zone B. The Agency was formed in 1974 to construct and operate regional sewage treatment and disposal facilities for the entire Big Bear Valley. The service area for the Agency includes most of the Big Bear Valley in the San Bernardino Mountains in Western San Bernardino County.

The Agency was formed under a joint exercise of powers agreement among the member entities for the purposes of planning and constructing sewer improvements to serve the member entities' service areas, obtaining State and Federal Clean Water grants, financing the local share of project costs, and operating the regional facilities. A regional treatment plant and disposal area were constructed and began operation in 1978.

(b) Basis of accounting

The Agency operates and reports as an enterprise utilizing the accrual method of accounting. Revenues are recognized when earned and expenses are recognized when incurred. Operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies, taxes, and investment earnings result from non-exchange transactions or ancillary activities.

When both restricted and unrestricted resources are available for use, it is the Agency's policy to use unrestricted resources first, then restricted resources as they are needed.

(c) Applicable accounting standards

The Governmental Accounting Standards Board (GASB) establishes accounting and financial reporting standards for financial statements of state and local governments. The Agency has elected to follow all pronouncements of the GASB.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Agency's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

(d) Investments

Investments are reported in the accompanying statement of net position at fair value, except for certificates of deposit and investment contracts that are reported at cost because they are not transferable, and they have terms that are not affected by changes in market interest rates.

Changes in fair value that occur during a fiscal year are recognized as *investment income* reported for that fiscal year. *Investment income* includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 1: Reporting entity and significant accounting policies, (continued)

(d) Investments, (continued)

In accordance with the Agency's investment policy, the Agency may invest in the following:

Certificates of Deposit U.S. Treasury Bills, Notes and Bonds Local Agency Investment Fund Money Market Mutual Funds

(e) Statement of cash flows

For the purposes of the statement of cash flows, cash and cash equivalents are defined to be cash on hand, demand deposits, restricted cash and investments, and highly liquid investments with a maturity of three months or less from the date of purchase. For financial statement presentation purposes, cash and cash equivalents are shown as cash and investments and restricted cash and investments, if applicable.

(f) Restricted cash and investments

Restricted cash and investments represent amounts held in trust at the bank and are set aside for construction costs as required by the loan agreement. Currently, the Agency has no restricted cash and investments.

(g) Capital assets

Assets purchased are recorded and capitalized at cost. Developer contributed capital assets are recorded at acquisition value at the time received. Donated capital assets are recorded at their acquisition value at the date of acquisition. The Agency's capitalization threshold for additions, major improvements, equipment, tools, vehicles, and other capital assets that individually have an original total cost of \$10,000 or more and have a useful life of one year or more or in the case of additions and improvements, extend the useful life by one year or more. Pipeline replacement expenditures of \$20,000 or greater and have a one year or greater life expectancy. All land and buildings are capitalized.

Land and construction in progress are not depreciated. All other assets are depreciated or amortized using the straight-line method over the following estimated useful lives:

	Estimated Useful Life			
	Range	(in	years)	
Administration Building	10	-	40	
Treatment Plant	15	-	99	
Interceptor System	15	-	99

Other Equipment	5	-	50	
Transportation Equipment	15	-	20	
Other Tangible Plant	30	-	30	
Studies and Maps	5	-	40	

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 1: Reporting entity and significant accounting policies, (continued)

(h) Employee leave benefits

Regular employees of the Agency earn from 3 to 4 vacation days per year, depending on their length of employment, and 12 sick days per year. Temporary and seasonal employees of the Agency are not eligible for vacation leave benefits.

In accordance with generally accepted accounting principles (GAAP), a liability is recorded for unused vacation and similar compensatory leave balance since the employees' entitlement to these balances are attributable to services already rendered and it is probable that virtually all of these balances will be liquidated by either paid time off or payments upon termination or retirement.

Under GAAP, a liability is recorded for unused sick leave balances only to the extent that it is probable that the unused balances will result in termination payments. This is estimated by including in the liability the unused balances of employees currently entitled to receive termination payment, as well as those who are expected to become eligible to receive termination benefits as a result of continuing their employment with the Agency. Other amounts of unused sick leave are excluded from the liability since their payment is contingent solely upon the occurrence of a future event (illness) which is outside the control of the Agency and the employee.

Upon termination or retirement, employees are entitled to receive compensation at their current base salary for all unused vacation and annual leave. Upon retirement or other honorable termination, an employee with a minimum of 5 continuous years of service is entitled to receive 50% of the value of his or her unused sick leave based on the number of hours accumulated.

The Agency has recorded a liability for the full 50% that is payable under the assumption that most employees will remain long enough to become eligible for the benefit.

(i) Use of estimates

In preparing financial statements in conformity with generally accepted accounting principles, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates.

(j) Prior year amounts

Selected information regarding the prior year has been included in the accompanying financial statements. This information has been included for comparison purposes only and does not represent a complete presentation in accordance with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Agency's prior year financial statements, from which this selected financial data was derived.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 1: Reporting entity and significant accounting policies, (continued)

(k) Pension plan

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. CalPERS audited financial statements are publicly available reports that can be obtained at CalPERS' website at www.calpers.ca.gov.

Generally accepted accounting principles requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used.

Valuation Date (VD) June 30, 2022 Measurement Date (MD) June 30, 2023

Measurement Period (MP) July 1, 2022 to June 30, 2023

(I) Inventory

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of expendable supplies.

(m) Contributed capital

Capital contributions typically consist of connection fees associated with the member agencies. The *Due from member agencies* account balance consists of connection fees still owed by the member agencies as of the fiscal year end.

(n) Other postemployment benefit plan (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows and inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined by an actuary. Investments are reported at fair value.

Generally accepted accounting principles requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used.

Valuation Date (VD) June 30, 2023 Measurement Date (MD) June 30, 2023

Measurement Period (MP) June 30, 2022 to June 30, 2023

(o) Jointly governed organization

In 2017, the Agency joined the Ground Water Sustainability Agency for the Bear Valley Basin (BVBGSA). The BVBGSA will enable the Agency to exercise the powers common and to work cooperatively and efficiently to implement the Sustainable Groundwater Management Act's requirements and provides a better opportunity for implementation of a recycled wastewater project.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 2: Budgetary data

During March, the General Manager submits to the Board of Directors a proposed operating budget for the fiscal year commencing July 1. The budget includes proposed expenses and estimated revenues. Prior to May 1, the budget is enacted legally through passage of an appropriation resolution. The Board of Directors must approve revisions that alter total appropriations. All appropriations lapse at fiscal year-end unless the Board of Directors takes formal action to continue the appropriation into the following fiscal year.

NOTE 3: Cash and investments

Cash and investments as of June 30, 2024 are classified in the accompanying financial statements as follows:

Statement of net position:	
Cash and investments	\$ 12,170,320
Cash and investments as of June 30, 2024 consist of the following:	
Cash on hand	\$ 600
Deposits with financial institutions	460,903
Investments	11,708,817
	·
Total cash and investments	\$ 12,170,320

Investments authorized by debt agreements

Investments of debt proceeds held by the loan trustee are governed by provisions of the loan agreement rather than the general provisions of the California Government Code or the Agency's investment policy. The following table identifies the investment types that are authorized for investments held by loan trustee. The table also identifies certain provisions of these debt agreements that address interest rate risk, credit risk, and concentration of credit risk.

Authorized investment type	Maximum maturity	Maximum percentage allowed	Maximum investment in one issuer
Money Market Mutual Funds investing in securities directly or indirectly guaranteed by the United States of America or an agency thereof	N/A	None	None

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 3: Cash and investments, (continued)

Fair value measurements

The Agency categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Agency does not have any recurring fair value measurements as of June 30, 2024. The Local Agency Investment Fund (LAIF) of \$11,708,817 is not subject to the fair value hierarchy.

Investments authorized by the California Government Code and the Agency's investment policy

The following table identifies the investment types that are authorized for the Agency by the California Government Code and the Agency's investment policy. The table also identifies certain provisions of the California Government Code (or the Agency's investment policy, if more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the Agency, rather than the general provisions of the California Government Code or the Agency's investment policy.

	Authorized by		Maximum	Maximum
Investment types	investment	Maximum	percentage	investment
authorized by State law	policy	maturity*	of portfolio*	in one issuer*

JPA Pools (other investment pools)	No	N/A	None	None

^{*} Based on state law requirements or investment policy requirements, whichever is more restrictive.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 3: Cash and investments, (continued)

Interest rate risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the Agency manages its exposure to interest rate risk is by purchasing a combination of shorter-term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or earning close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the Agency's investments (including investments held by bond trustee, if any) to market interest rate fluctuations is provided by the following table that shows the distribution of the Agency's investments by maturity:

		Remaining maturing (in months)						
							Mor	e than
Investment type	Total	12 or less	13	to 24	25	to 60		60
State investment pool	\$ 11,708,817	\$ 11,708,817	\$	-	\$	-	\$	-

Credit risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the Agency's investment policy, or debt agreements, and the actual rating as of year-end for each investment type.

		Minimum	Exempt	Rating as of year end		
		legal	from			Not
Investment type	Total	rating	disclosure	AAA	Aa	rated
State investment pool	\$ 11,708,817	N/A	\$ -	\$ -	\$ -	\$ 11,708,817

Concentration of credit risk

The investment policy of the Agency contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. The Agency did not have any investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represents 5% or more of total Agency investments.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 3: Cash and investments, (continued)

Custodial credit risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the Agency's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure Agency deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. As of June 30, 2024, the Agency's deposits with financial institutions are interest bearing, and have a limited insurance coverage with the federal deposit insurance corporation up to \$250,000. Any amounts in excess of \$250,000 per institution are collateralized by the bank with pledged securities.

Investment in State investment pool

The Agency is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the Agency's investment in this pool is reported in the accompanying financial statements at amounts based upon the Agency's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

LAIF is a special fund of the California State Treasury through which local governments may pool investments. The Agency may invest up to \$75,000,000 in the fund. Investments in LAIF are highly liquid, as deposits can be converted to cash within 24 hours without loss of interest. Investments with LAIF are secured by the full faith and credit of the State of California. The average annual yield of LAIF during the years ended June 30, 2024 and 2023 was 3.927% and 2.170%, respectively. The carrying value and estimated fair value of the LAIF Pool at June 30, 2024 and 2023 was \$178,048,356,232 and \$178,392,433,566 and \$178,382,808,290 and \$175,676,473,336, respectively. The Agency's share of the Pool at June 30, 2024 and 2023 was approximately 0.00658% and 0.00617%, respectively. Included in LAIF's investment portfolio at June 30, 2024 and 2023 are structured notes and asset-backed securities totaling \$2,250.000 and \$3,098.480 and \$2,300.000 and \$2,660.770, respectively currently available. The LAIF has oversight by the Local Investment Advisory Board. The LAIF Board consists of five members as designated by statute.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 4: Lease receivable

On July 1, 2023, the Agency had several leases as a Lessor which ranged from 59 to 60 months for the use of several plots of land. An initial lease receivable was recorded in the range between \$34,440 and \$133,833. As of June 30, 2024, the value of the lease receivable was \$132,594. The lessees are required to make fixed payments in a range between \$779 and \$17,117. The leases have an interest rate between 0.6240% and 0.9480%. The value of the deferred inflow of resources as of June 30, 2024 was \$137,325, and the Agency recognized lease revenue of \$60,539 during the fiscal year. Two of the leases have an extension option for 60 months.

The remainder of this page was left intentionally blank.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 5: Capital & intangible assets

A summary of changes in capital and intangible assets of the Agency for the year ending June 30, 2024 is as follows:

	Beginning balance	5 5		Ending balance
Capital assets,				
not being depreciated				
Land	\$ 1,037,626	\$ -	\$ -	\$ 1,037,626
Construction in Progress	1,733,880	3,537,949	(35, 154)	5,236,675
Total capital assets, not				
being depreciated	2,771,506	3,537,949	(35,154)	6,274,301
Capital assets, being depreciated/

2011 Refunding installment sale agreement financing with Compass Bank (2011 Refunding Agreement) – Direct Borrowing

On November 15, 2011, the Agency refunded its outstanding obligations under 1) the 1998 Association of Bay Area Governments Water and Wastewater Revenue Bonds (a pooled financing program) Series B (the ABAG Bonds) and 2) the December 1, 2006 Loan Agreement between the Agency and Municipal Finance Corporation (the 2006 Agreement). The purpose of the original borrowings was to finance certain improvements to the Agency's wastewater system. The purpose of the 2011 refunding was to take advantage of the low interest-rate environment, and refinance the Agency's existing debt at a lower rate, while maintaining the same period to maturity. All Agency net revenues are irrevocably pledged for the loan repayments in accordance with the terms of the 2011 Refunding Agreement. In the event of default, the lender may declare the unpaid principal and accrued interests due and payable immediately.

Total proceeds under the 2011 Refunding Agreement were \$5,568,142, borrowed at an interest rate of 3.3%, compared to 5.0% and 4.45%, under the ABAG Bonds and 2006 Agreement, respectively. Total proceeds included a prepayment premium under the 2006 Agreement of \$42,432 and issuance costs associated with the 2011 Refunding Agreement of \$47,500. Amounts borrowed under the 2011 Refunding Agreement are payable in 30 semi-annual installments, over a 15-year period through November 15, 2026 with the first payment due May 15, 2012. The installment payments range from \$576,084 to \$179,554. The Agency may prepay the unpaid principal on the 2011 Refunding Agreement beginning November 15, 2016. Such prepayments beginning on such date and through November 14, 2021 are subject to a make-whole provision contained in the 2011 Refunding Agreement. The current refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$125,867. This difference is reported in the accompanying financial statements as a deduction to the 2011 Refunding Agreement payable and is being amortized through November 15, 2026 using the straight-line method of amortization.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 6: Long-term liabilities (continued)

2018 Installment purchase agreement – Direct Borrowing

On September 1, 2018, the Agency entered into an Installment Purchase Agreement (the 2018 Installment Purchase Agreement), for \$1,760,000 with BBVA Compass, an Alabama banking corporation (Bank), for the purpose of financing the acquisition and construction of certain improvements of the Agency's wastewater system. The 2018 Installment Purchase Agreement carries an interest rate of 3.70% on the unpaid principal with an ending term on the earlier of November 15, 2033 or the date upon which the installment payments shall be paid in full. All Agency net revenues are irrevocably pledged for the loan repayments in accordance with the terms of the 2018 Installment Purchase Agreement. In the event of default, the lender may declare the unpaid principal and accrued interests due and payable immediately and require officials of the Agency to charge and collect rates for services provided by the Agency and the System sufficient to meet all requirements of the Installment Purchase Agreement.

The Agency previously entered into a certain Loan Agreement dated as of November 1, 2011 (the 2011 Refunding agreement) by and between the Agency and the Bank under which the Agency pledged Net Revenues for the purpose of financing and refinancing certain improvements to the Agency's wastewater system.

2011 Refunding Agreement and 2018 Installment Purchase Agreement debt covenants

The Agency has covenanted to set rates, fees and charges for each fiscal year so as to yield net revenues equal to at least 120% of the annual debt service for such year. For the year ended June 30, 2024 the Agency's net revenues were 624% of the annual debt service, which exceeded the minimum requirement. The Agency also complied with all other covenants set forth in the 2011 Refunding Agreement and 2018 Installment Purchase Agreement.

2023 Capital One Public Funding Loan Agreement - Direct Borrowing

On February 1, 2023, the Agency entered into a Loan Agreement (the 2023 Capital One Public Funding Loan Agreement), for \$3,400,000 with Capital One Public Funding, LLC, a limited liability company (the Lender), for the purpose of financing the Replenish Big Bear Project which consists of treatment plant upgrades and improvements to distribute treated water to the lake for re-use purposes such as landscape irrigation, dust control, and snowmaking at the golf course and ski resort and for water supply purposes such as groundwater recharge in Sand Canyon. The Capital One Public Funding Loan Agreement carries an interest rate of 4.25% on the unpaid principal with an ending term on the earlier of June 30, 2026 or the date upon which the installment payments shall be paid in full. All Agency net revenues are irrevocably pledged for the loan repayments in accordance with the terms of the 2023 Capital One Public Funding Loan Agreement. In the event of default, the lender may declare the unpaid principal and accrued interests due and payable immediately and require officials of the Agency to charge and collect rates for services provided by the Agency and the System sufficient to meet all requirements of the 2023 Capital One Public Funding Loan Agreement.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 6: Long-term liabilities (continued)

2023 Capital One Public Funding Loan Agreement debt covenants

The Agency has covenanted to set rates, fees and charges for each fiscal year so as to yield net revenues equal to at least 110% of the annual debt service for such year. For the year ended June 30, 2024 the Agency's net revenues were 624% of the annual debt service, which exceeded the minimum requirement. The Agency also complied with all other covenants set forth in the 2024 Capital One Public funding Loan Agreement.

NOTE 6: Long-term liabilities (continued)

Lease Liability – Postage meter

On August 23, 2021, the Agency entered into a 63-month lease as Lessee for the use of a postage meter. An initial lease liability was recorded in the amount of \$2,450. As of June 30, 2024, the value of the lease liability is \$1,066. The Agency is required to make quarterly fixed payments of \$120. The lease has an interest rate of 1.09%. The equipment estimated useful life was months as of the contract commencement. The value of the right to use asset as of June 30, 2024 of \$2,450 with accumulated amortization of \$1,333 is included with capital assets in Note 5.

Debt service requirements to maturity

	\$	1,066	\$ 30	\$ 1,096

NOTE 7: Related-party transactions

The Board of Directors of the Agency is composed of board members of the three government agencies that are the primary customers of the Agency. Two of the directors of the Big Bear Area Regional Wastewater Agency are directors of the Big Bear City Community Services District. Two directors are from the City of Big Bear Lake and one director is from the County of San Bernardino. The District, City and County serve as collecting agents for certain revenues of the Agency including annual charges, standby charges, and connection fee charges.

NOTE 8: Pension plan

A. General information about the pension plan

Plan description

All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan or PERF C) administered by the California Public Employees' Retirement System (CalPERS.) The Plan consists of a miscellaneous pool and a safety pool (also referred to as "risk pools"), which are comprised of individual employer miscellaneous and safety rate plans, respectively. Plan assets may be used to pay benefits for any employer rate plan of the safety and miscellaneous pools. Accordingly, rate plans within the safety or miscellaneous pools are not separate plans under generally accepted accounting principles. Individual employers may sponsor more than one rate plan in the miscellaneous or safety risk pools. The Agency participates in two rate plans (both miscellaneous). Benefit provisions under the Plan are established by State statute and Agency resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS' website, at www.calpers.ca.gov.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 8: Pension plan (continued)

A. General information about the pension plan, continued

Benefits provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 5 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plan operates under the provisions of the California Public Employees' Retirement Law (PERL), the California Public Employees' Pension Reform Act of 2013 (PEPRA), and the regulations, procedures and policies adopted by the CalPERS Board of Administration. The Plan's authority to establish and amend the benefit terms are set by the PERL and PEPRA, and may be amended by the California state legislature and in some cases require approval by the CalPERS Board.

The Plan's provisions and benefits in effect at June 30, 2024, are summarized as follows:

	Prior to	On or after
Hire date	January 1, 2013	January 1, 2013
Benefit formula	2.7% @ 55	2% @ 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	monthly for life	monthly for life
Retirement age	50 - 55	52 - 67
Employer contribution rates	2.0% to 2.7%	1.0% to 2.5%
Required employer contribution rates	16.87%	8.00%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is based on the estimated amount necessary to finance the cost allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Employer contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements are classified as plan member contributions. Employer Contributions to the Plan for the fiscal year ended June 30, 2024 were \$404,922. The actual employer payments of \$398,290 made to CalPERS by the Agency during the measurement period ended June 30, 2023 differed from the Agency's proportionate share of the employer's contribution of \$455,510 by \$(57,220) which is being amortized over the expected average remaining service lifetime in the Public Agency Cost Sharing Multiple Employer Plan.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 8: Pension plan, (continued)

B. Net pension liability

The Agency's net pension liability for the Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of the Plan is measured as of June 30, 2023, using an annual actuarial valuation as of June 30, 2022 rolled forward to June 30, 2023 using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is as follows.

Actuarial methods and assumptions used to determine total pension liability

The collective total pension liability for the June 30, 2023 measurement period was determined by an actuarial valuation as of June 30, 2022, with update procedures used to roll forward the total pension liability to June 30, 2023. The collective total pension liability was based on the following assumptions:

Valuation Date June 30, 2022 Measurement Date June 30, 2023

Actuarial Cost Method Entry Age Actuarial Cost Method

Asset Valuation Method Fair Value of Assets

Actuarial Assumptions:

Discount Rate 6.90% Inflation 2.30%

Salary Increases Varies by Entry Age and Service

Mortality Rate Table (1) Derived using CalPERS' membership data for all funds
Post Retirement Benefit Increase The lesser of contract COLA or 2.30% until Purchasing

Power Protection Allowance floor on purchasing power

applies, 2.30% thereafter.

Long-term expected rate of return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the next 20 years using a building-block approach. The expected rate of return was then adjusted to account for assumed administrative expenses of 10 Basis points.

⁽¹⁾ The mortality table used was developed based on CalPERS-specific data. The probabilities of mortality are based on the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. Mortality rates incorporate full generational mortality improvement using 80% of Scale MP-2020 published by the Society of Actuaries. For more details on this table, please refer to the 2021 experience study report from November 2021 that can be found on the CalPERS website.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 8: Pension plan, (continued)

B. Net pension liability, continued

The expected real rates of return by asset class are as follows:

Asset Class	Assumed Asset Allocation	Real Return ^{1,2}
Global equity - cap-weighted	30.0%	4.54%
Global equity non-cap-weighted	12.0%	3.84%
Private equity	13.0%	7.28%
Treasury	5.0%	0.27%
Mortgage-backed Securities	5.0%	0.50%
Investment grade corporates	10.0%	1.56%
High yield	5.0%	2.27%
Emerging market debt	5.0%	2.48%
Private debt	5.0%	3.57%
Real Assets	15.0%	3.21%
Leverage	(5.0%)	-0.59%

¹ An expected inflation of 2.30% used for this period.

Change of assumptions

There were no assumption changes in 2023. Effective with the June 30, 2021 valuation date (June 30, 2022 measurement date), the accounting discount rate was reduced from 7.15% to 6.90%. In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. In addition, demographic assumptions and the price inflation assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. The accounting discount rate was 7.15% for measurement dates June 30, 2017 through June 30, 2021, 7.65% for measurement dates June 30, 2016, and 7.50% for measurement date June 30, 2014.

Discount rate

The discount rate used to measure the total pension liability for PERF C was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

² Figures are based on the 2021 Asset Liability Management study.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 8: Pension plan, (continued)

B. Net pension liability, continued

Subsequent events

There were no subsequent events that would materially affect the results presented in this disclosure.

Pension plan fiduciary net position

Information about the pension plan's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and fiduciary net position are presented in CalPERS' audited financial statements, which are publicly available reports that can be obtained at CalPERS' website, at www.calpers.ca.gov. The plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis used by the pension plan, which is the economic resources measurement focus and the accrual basis of accounting. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

C. Proportionate share of net pension liability

The following table shows the Agency's proportionate share of the net pension liability over the measurement period.

		Increase (Decrease)						
	Plan	Total Pension	Plar	Fiduciary Net	Plan Net Pension			
		Liability		Position	Liability			
		(a)		(b)		(c) = (a) - (b)		
Balance at: 6/30/2022 (VD)	\$	13,457,666	\$	10,515,211	\$	2,942,455		
Balance at: 6/30/2023 (MD)		14,190,128		10,957,210		3,232,918		
Net changes during 2022-23	\$	732,462	\$	441,999	\$	290,463		

Valuation Date (VD), Measurement Date (MD).

The Agency's proportion of the net pension liability was determined by CalPERS using the output from the Actuarial Valuation System and the fiduciary net position, as provided in the CalPERS Public Agency Cost-Sharing Allocation Methodology Report, which is a publicly available report that can be obtained at CalPERS' website, at www.calpers.ca.gov. The Agency's proportionate share of the net pension liability for the Miscellaneous Plan as of the June 30, 2022 and 2023 measurement dates was as follows:

Proportion share of NPL - June 30, 2022	0.06288%
Proportion share of NPL - June 30, 2023	0.06465%
Change - Increase (Decrease)	0.00177%

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 8: Pension plan, (continued)

C. Proportionate share of net pension liability, continued

Sensitivity of the proportionate share of the net pension liability to changes in the discount rate

The following presents the Agency's proportionate share of the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 6.90 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (5.90 percent) or 1 percentage-point higher (7.90 percent) than the current rate:

	Disco	Discount Rate - 1% (5.90%)		rent Discount ate (6.90%)	Discount Rate + 1% (7.90%)	
Plan's Net Pension Liability	\$	5,152,073	\$	3,232,918	\$	1,653,289

Amortization of deferred outflows and deferred inflows of resources

Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Net difference between projected and actual earnings on pension plan investments	5-year straight-line amortization
All other amounts	Straight-line amortization over the expected average remaining service lives (EARSL) of all members that are provided with benefits (active, inactive and retired) as of the beginning of the measurement period

The expected average remaining service lifetime (EARSL) is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired) in the Public Agency Cost-Sharing Multiple-Employer Plan (PERF C).

The EARSL for PERF C for the measurement period ending June 30, 2023 is 3.8 years, which was obtained by dividing the total service years of 600,538 (the sum of remaining service lifetimes of the active employees) by 160,073 (the total number of participants: active, inactive, and retired) in PERF C. Inactive employees and retirees have remaining service lifetimes equal to 0. Total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 8: Pension plan, (continued)

D. Pension expense and deferred outflows and deferred inflows of resources related to pensions

As of the start of the measurement period (July 1, 2022), the Agency's net pension liability was \$2,942,455. For the measurement period ending in June 30, 2023 (the measurement date), the Agency incurred a pension expense of \$678,908.

As of June 30, 2024, the Agency has deferred outflows and deferred inflows of resources related to pensions as follows:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Changes of Assumptions Differences between Expected and Actual Experience	\$	195,185 165,155	\$	- 25,620
Differences between Projected and Actual Investment Earnings Differences between Employer's Contributions and Proportionate Share of Contributions		523,439 -		- 153,780
Change in Employer's Proportion Pension Contributions Made Subsequent to Measurement Date		145,865 404,922		-

E. Payable to the pension plan

At June 30, 2024, the Agency reported a payable of \$-0- for the outstanding amount of contributions to the pension plan required for year then ended.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 9: Other postemployment benefits plan

Plan description

The Agency has established a Retiree Healthcare Plan (OPEB Plan), and participates in an agent multiple-employer defined benefit retiree healthcare plan. Medical coverage is currently provided through CalPERS as permitted under the Public Employees' Medical and Hospital Care ACT (PEMCHA). This coverage is available for employees who satisfy the requirements for retirement under the California Public Employees Retirement System (PERS), which is either (a) attainment of age 50 or older (age 52 for PEPRA members) with at least five years of State or public agency service or (b) an approved disability retirement. A separate financial report is not prepared for the OPEB Plan.

Benefits provided

The Agency pays 100% of the medical insurance costs for eligible retirees and their eligible dependents not to exceed the pre-Medicare (basic) family premium rate for the highest cost HMO plan in the region.

Employees retired prior to January 1, 2011 are also covered by the Agency's "Health Premium Reimbursement Plan" which, when combined with benefits provided by PEMCHA provides a benefit equal to 100% of the medical plan premiums (no maximum) for pre-2011 retirees and their dependents. Employees hired after January 1, 2020 who retire from the Agency with at least 5 years of Agency service receive a percentage of the premium for employee and their dependents (up to 90% of the highest cost Region 3 HMO plan pre-Medicare family premium rate). The percentage received is based on years of service.

Employees covered

As of the June 30, 2023 actuarial valuation date the following current and former employees were covered by the benefit terms under the OPEB Plan:

Active employees	14
Inactive employees or beneficiaries currently receiving benefits	14
Total	28

Contributions

The Agency makes health premium contributions for eligible retirees that enroll in a CalPERS health plan during retirement. The current monthly amount paid by the Agency ranges from \$270 - \$2,106. These amounts change annually based on the retiree's health plan election and rates published by CalPERS. The Agency provided amounts are detailed in the Summary of Principal Plan Provisions. The annual contribution is based on the actuarially determined contribution. For the fiscal year ended June 30, 2024, the Agency's cash contributions were \$172,713, made for health reimbursement premiums to retirees, \$56,877 of contributions made to the Trust, and the estimated implied subsidy was \$50,916 resulting in total payments of \$223,629. The Agency has established an Irrevocable Trust with CalPERS' California Employer's Retiree Benefit Trust (CERBT). The Irrevocable Trust was required to fully implement the Agency's direction of prefunding the Agency's OPEB liability.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 9: Other postemployment benefits plan, (continued)

Net OPEB liability

The Agency's net OPEB liability was measured as of June 30, 2023 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2023, based on the following actuarial methods and assumptions:

Actuarial Assumptions:

Valuation Date

Measurement Date

Discount Rate

Inflation

Salary Increases

Investment Rate of Return

Mortality Rate

June 30, 2023

June 30, 2024

June 30, 2026

June

WacLeod Walls Scale 2022

Pre-Retirement Turnover Healthcare Trend Rate Medical plan premiums and claims are assumed to

increase once each year

The long-term expected rate of return on OPEB plan investments was determined using a building—block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term expected real rate of return
Treasury inflation-protected securities	5%	1.30%
Fixed income	23%	2.20%
Global equity	49%	4.50%
Global Real Estate (REIT's)	20%	3.90%
Commodities	3%	1.20%

Change of Assumptions

For the current measurement period, the discount rate changed from 6.15% to 6.20%. The demographic assumption was updated from the 2019 CalPERS Experience study to those recommended in the CalPERS 2021 Experience Study. The healthcare trend was updated from the 2021 Getzen Model to the 2023 Getzen Model. The mortality improvement scale was updated from the MacLeod Watts Scale 2020 to the MacLeod Watts Scale 2022.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 9: Other postemployment benefits plan, (continued)

Discount rate

The discount rate used to measure the total OPEB liability was 6.20% as of June 30, 2024, net of Plan investment expenses and including inflation. The projection of cash flows used to determine the discount rate assumed that Agency contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in the OPEB liability

The changes in the net OPEB liability for the OPEB Plan are as follows:

	Total OPEB Liability (a)		n Fiduciary et Position (b)	Lia	Net OPEB Liability/(Asset) (c) = (a) - (b)		
Balance at June 30, 2023

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 9: Other postemployment benefits plan, (continued)

Sensitivity of the net OPEB liability to changes in the health care cost trend rates

The following presents the net OPEB liability of the Agency if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2023:

		Current Healthcare Cost						
	1% Decrease			Trend Rates	1% Increase			
Net OPEB Liability	\$	882,122	\$	1,425,731	\$	2,107,903		

Recognition of deferred outflows and deferred inflows of resources

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time.

Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

The recognition period differs depending on the source of the gain or loss:

Net difference between projected and	5 years
actual trust earnings	

All other amounts

Straight-line recognition over the expected average remaining service lifetime (EARSL) of all members that are provided with benefits, determined as of the beginning of the Measurement Period. In determining the EARSL, all active, retired and inactive (vested) members are counted, with the latter two groups having 0 remaining service years.

OPEB expense and deferred outflows/inflows of resources related to OPEB

For the fiscal year ended June 30, 2024, the Agency recognized OPEB expense of \$352,693. A complete breakdown of OPEB expense is as follows:

Description	Amount
Service cost	\$ 148,568
Interest cost	237,941
Expected earnings on assets	(157,292)
Administrative expenses	743
Recognized assumption changes	76,558
Recognized differences in plan experience	3,497
Recognized differences in projected and	
actual investments earnings	42,678
Total OPEB expense	\$ 352,693

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 9: Other postemployment benefits plan, (continued)

OPEB expense and deferred outflows/inflows of resources related to OPEB, continued

As of June 30, 2024, the Agency reported deferred outflows of resources related to OPEB from the following sources:

	C	Deferred Dutflows Resources	Deferred Inflows Resources
OPEB contributions subsequent to measurement date Changes of assumptions Differences between expected and actual experience Net difference between projected and actual	\$	280,506 324,209 173,384	\$ 51,432 107,001
earnings on OPEB plan investments Total	\$	182,370 960,469	\$ - 158,433

The \$280,506 reported as deferred outflows of resources related to contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources related to OPEB will be recognized as expense as follows:

		Deferred
Fiscal Year Ended	Outflo	ws/(Inflows) of
June 30:	Re	sources, net
2025	\$	104,934
2026		88,660
2027		180,717
2028		64,194
2029		74,007
Thereafter		9,018

NOTE 10: Deferred compensation

The Agency has made available to its employees two deferred compensation plans (defined contribution plans), created in accordance with Internal Revenue Code Section 457, whereby employees authorize the Agency to defer a portion of their salary to be deposited in individual investment accounts. Funds may be withdrawn by participants upon termination of employment or retirement. If an employee elects to contribute a minimum of 6% of the employee's annual salary, the Agency will contribute 3% of the employee's annual salary into a 401(a) plan, which is a employer-sponsored defined contribution plan. As of June 30, 2024, the deferred compensation assets were held in a trust account for the sole benefit of the employees and their beneficiaries, and accordingly have been excluded from the Agency's reported assets. The Agency's contribution to the plan for the current fiscal year is \$54,560.

Notes to the Basic Financial Statements For the Year Ended June 30, 2024

NOTE 11: Net position

The Agency's net position is comprised of the following components:

	2024	2023
Net investment in capital assets: Capital assets, not being depreciated Capital assets, net of depreciation	\$ 6,274,301 13,156,193	\$ 2,771,506 13,335,356
Less: Debt related to capital assets		
2011 Refunding agreement	(854,985)	(1,177,865)
2018 Installment purchase agreement	(1,192,384)	(1,295,408)
2023 Capital One public funding loan agreement	(3,400,000)	(3,400,000)
Copier lease	(1,066)	(1,531)
Add: Deferred charges on refunding	 12,336	 17,365
Net investment in capital assets	 13,994,395	 10,249,423
Unrestricted	 9,954,554	 9,152,498
Total net position	\$ 23,948,949	\$ 19,401,921

NOTE 12: Risk management

The Agency is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets, errors and omissions and natural disasters. The Agency has acquired insurance coverage through Special District Risk Management Authority to finance various risks such as workers' compensation, general liability and property damage.

Insurance policies are purchased for the following exposures with the deductible or the amount of risk retention:

General and Auto Liability, Public Officials' and Employees' Errors and Omissions and Employment Practices Liability: coverage of \$5,000,000, with \$500 deductible per occurrence for general liability, \$1,000 deductible per occurrence for auto liability, and 50% co-insurance of cost expended by SDRMA, in excess of \$10,000 up to \$50,000 for employment-related claims.

Employee Dishonesty: purchased from National Union Fire Insurance Company – coverage of \$1,000,000 per loss and includes public employee dishonesty, forgery or alteration and theft, disappearance and destruction.

Property Loss: purchased from Lexington Insurance Company – coverage of \$1,000,000,000 per occurrence with \$1,000 deductible per occurrence.

Boiler and Machinery: purchased from Lexington Insurance Company – coverage of \$100,000,000 per occurrence with \$1,000 deductible.

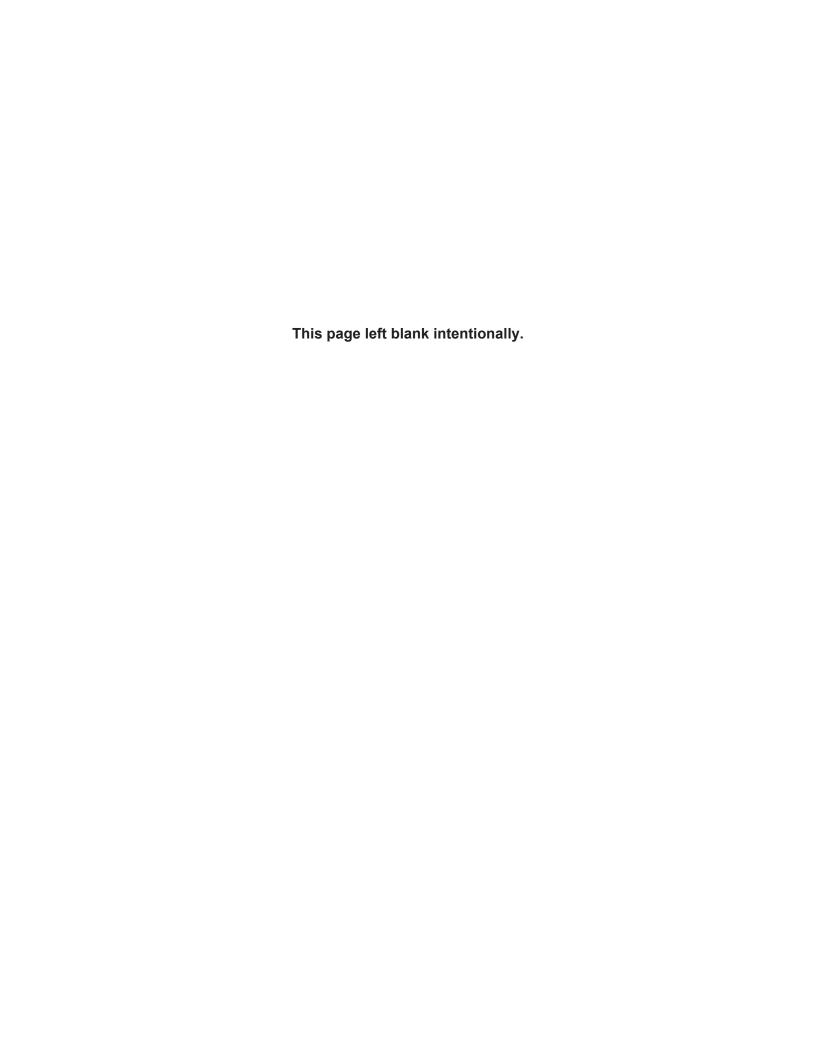

Public Officials Personal Liability: coverage of \$500,000 per occurrence, with an annual aggregate of \$500,000 per each elected/appointed official, with deductible of \$1,000 per claim;

Comprehensive and Collision: on selected vehicles with deductibles of \$250/\$500 or \$500/\$1,000 as elected.

Worker's compensation: statutory limits per occurrence and \$5,000,000 for employer's liability coverage.

The amounts of settlements did not exceed insurance coverage for each of the past three fiscal years.

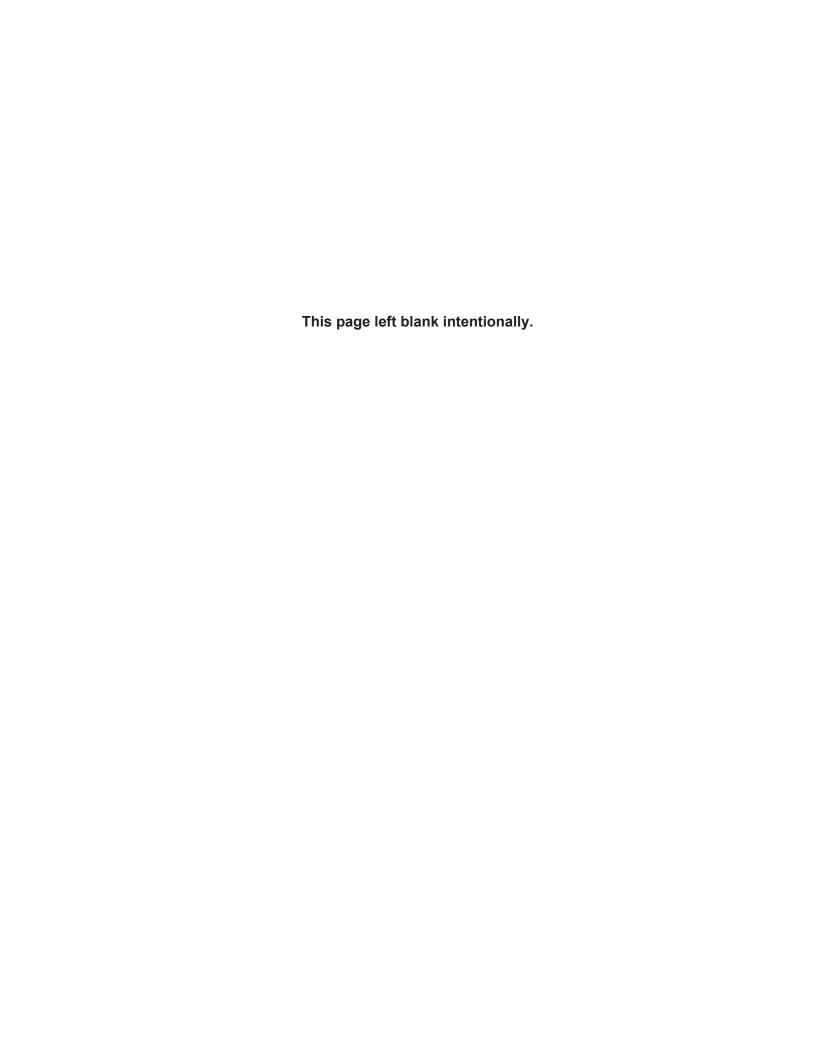

Schedule of the Agency's Proportionate Share of the Plan's Net Pension Liability and Related Ratios as of the Measurement Date Last 10 Years

Measurement date	Employer's proportion of the collective net pension liability ¹	Employer's proportionate share of the collective net pension liability	Employer's covered payroll	Employer's proportionate share of the collective net pension liability as a percentage of the employer's covered payroll	Pension plan's fiduciary net position as a percentage of the total pension liability
6/30/2014	0.02306%	\$ 1,435,154	\$ 958,945	149.66%	83.03%

June 30, 2024	404,9	22	(404,922)		-		1,575,803	25.70%

Notes to Schedule:

Changes in Benefit Terms: There were no changes to benefit terms that applied to all members of the Public Agency Pool. Additionally, the figures above do not include any liability impact that may have resulted from Golden Handshakes that occurred after the June 30, 2021 valuation date, unless the liability impact is deemed to be material to the Public Agency Pool.

Changes in Assumptions: Effective with the June 30, 2021 valuation date (2022 measurement date), the accounting discount rate was reduced from 7.15% to 6.90%. In determining the long-term expected rate of return, CalPERS took into account longterm market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated, combined with risk estimates, and are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. In addition, demographic assumptions and the inflation rate assumption were changed in accordance with the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. There were no assumption changes for 2021. For 2020, the Plan adopted a new amortization policy effective with the 2019 actuarial valuation. The new amortization policy shortens the period over which actuarial gains and losses are amortized from 30 years to 20 years with the payments computed as a level dollar amount. In addition, the new policy does not utilize a five-year ramp-up and ramp-down on UAL bases attributable to assumption changes and noninvestment gains/losses. The new policy also does not utilize a five-year ramp-down on investment gains/losses. These changes apply only to new UAL bases established on or after June 30, 2019. There were no changes in assumptions in 2019. In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate in 2019. In 2017, the accounting discount rate was reduced from 7.65 percent to 7.15 percent. In 2016, there were no changes in the discount rate. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expense). In 2014, amounts reported were based on the 7.5 percent discount rate.

Notes to schedule:

Contributions are fixed and not made based on a measure of pay, therefore covered employee payroll is used in the schedule.

Actuarial methods and assumptions used to set actuarially determined contributions for fiscal year 2024 were from the June 30, 2023 actuarial

Methods and assumptions used to determine contributions:

Actuarial Cost Method Entry Age Normal

Amortization Methodology Level % of Pay, 30 years closed

Amortization Period 15 yrs remain

Asset Valuation Method Market value of assets

6.20% Discount Rate

Inflation 2.50% per annum

3.00% per year; since benefits are not related to pay, this is used only to allocate the cost of benefits Salary Increase

between service years

Investment Rate of Return 6.20%

6.50%, decreasing to 3.9% by 2075 Healthcare Trend

Retirement Age From 50 to 75

Mortality CalPERS 2021 Experience Study, Projected with MW Scale 2022

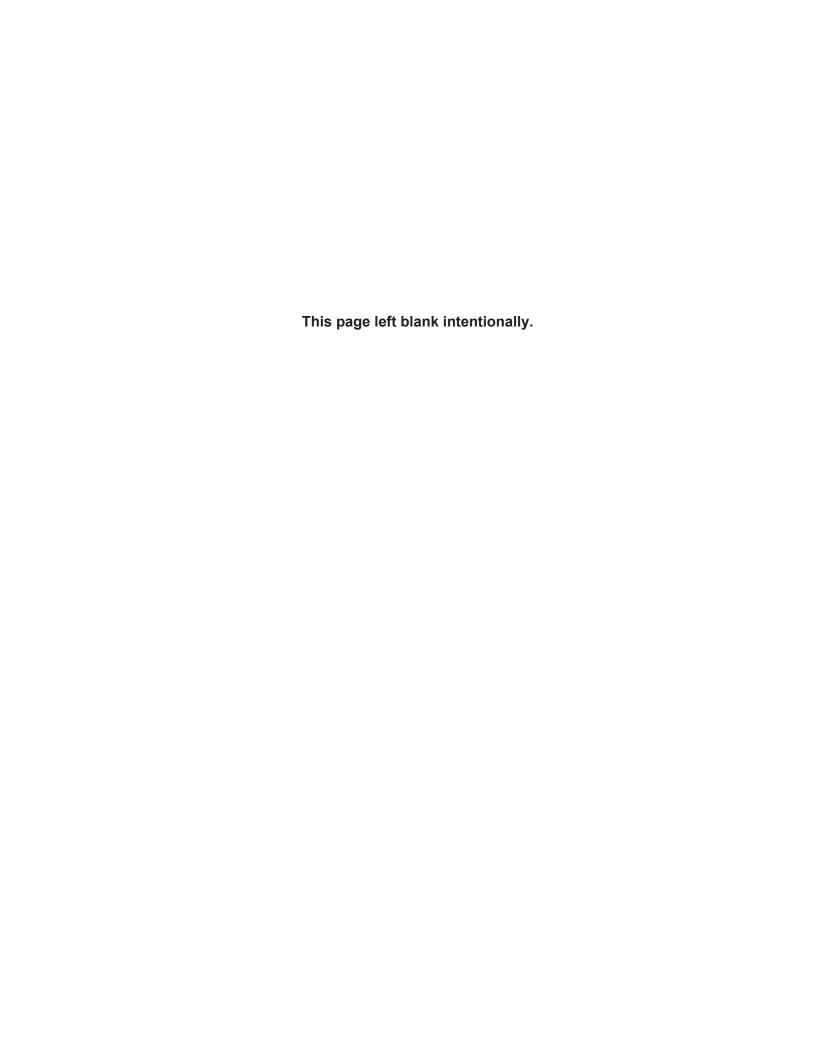

^{*}Historical information is required only for measurement periods for which GASB 75 is applicable. Future years' information will be displayed up to 10 years as information becomes available.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

To the Board of Directors
Big Bear Area Regional Wastewater Agency
Big Bear City, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the Big Bear Area Regional Wastewater Agency (the Agency), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements and have issued our report thereon dated October 3, 2024.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Agency's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

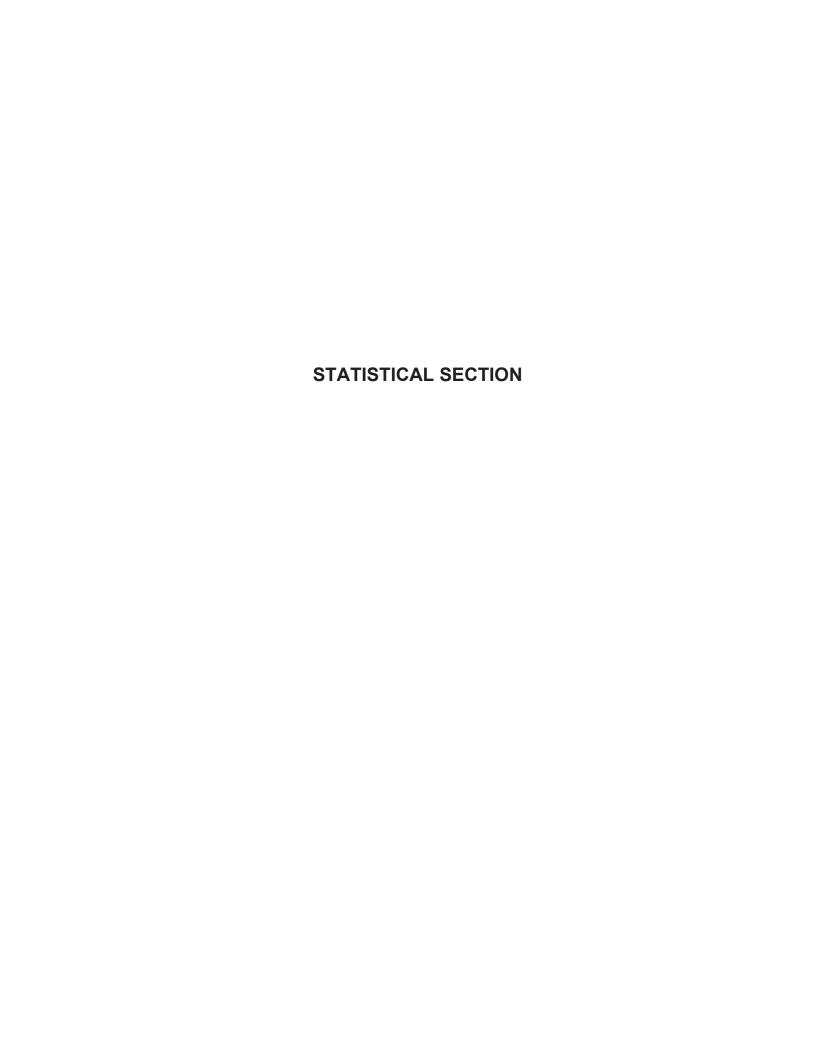

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Rogers, Anderson, Malody e Scott, LLP.

STATISTICAL SECTION

Overview

The objective of the statistical section is to provide users with historical perspective and detail so that they may better understand and assess the Agency's economic condition. Please note that all information presented has been sourced from Agency financial and operating information unless otherwise noted.

Financial Trends

This section contains 10-year historical information related to the Agency's financial performance and is intended to assist users in understanding and assessing the Agency's financial position and how it has changed over time.

Revenue Capacity

This section contains information related to the Agency's primary operating revenues and is intended to assist users in understanding and assessing the Agency's capacity to generate revenues and its ability to collect revenues.

Debt Capacity

This section contains information related to the Agency's ability to service its current debt outstanding and provides an indication of the Agency's ability to issue additional debt.

Demographic and Economic Information

This section contains information related to the socioeconomic environment in which the Agency operates. This information facilitates comparisons of financial statement information over time and among similar government agencies.

Financial Trends

All years presented are for the fiscal year ending June 30.

Annual charges are the Agency's largest component of Operating Revenues and represent the Agency's charges for the collection, treatment, and disposal of wastewater flow. Annual charges are charged to the Member Agencies (the Big Bear City Community Services District, the City of Big Bear Lake, and the County of San Bernardino CSA 53B), and are based on the sewer user fee (rate) established by the Governing Board of Directors, the number of equivalent dwelling units and the volume of wastewater collected, treated, and disposed of.

¹Outstanding debt balances reflect principal balances and exclude discounts, premiums, and deferred amounts. All debt issued is secured by the revenues of the Agency.

Demographic and Economic Information

The following is general information related to the economic and demographic condition of the Agency's service area. The Agency serves a rural, tourist-based area comprised of three separate service areas: the Big Bear City Community Services District (CSD), the City of Big Bear Lake, and the County of San Bernardino County Service Area 53B (CSA 53B). It should be noted that the Agency serves a large population of second homeowners due to the resort nature of the area. The Agency estimates that approximately 38% of the residential sewer connections represent full-time Big Bear residents.

The statistics presented on the following pages have been obtained from information estimated by the U.S. Census Bureau in the 2022 American Community Survey. It is important to note that the information presented covers the zip code areas of 92315, which is represented in the following demographic information as the City of Big Bear Lake and 92314, which is represented in the following demographic information as Big Bear City.

POPULATION ESTIMATES

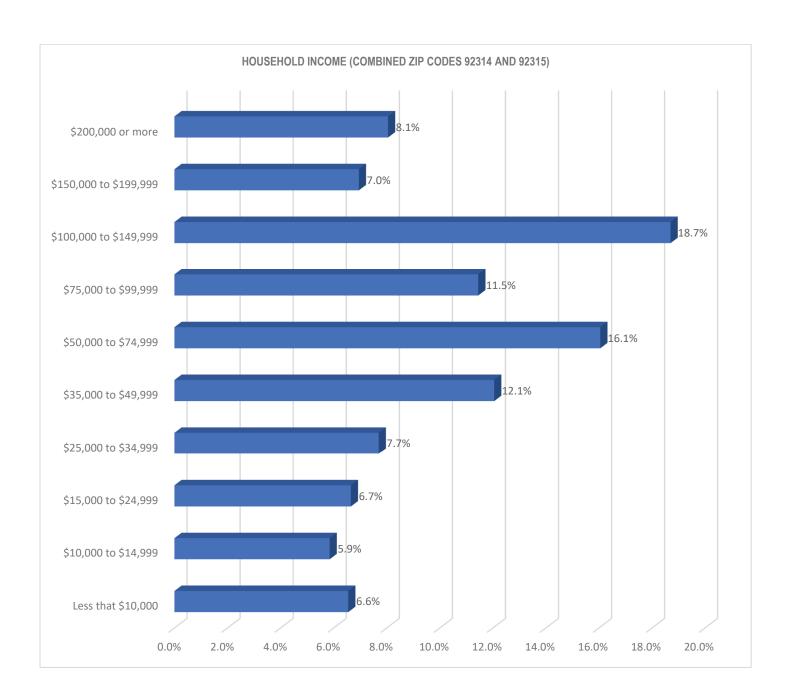

Year	City of Big Bear Lake	Big Bear City	Total
2022	5,059	12,753	17,812

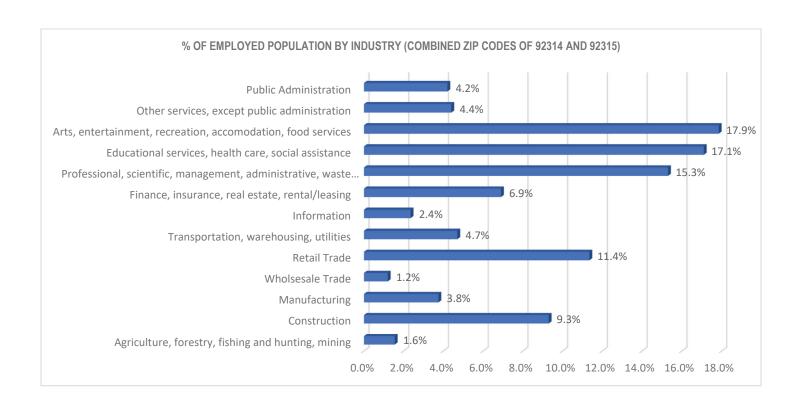

UNEMPLOYMENT ESTIMATES

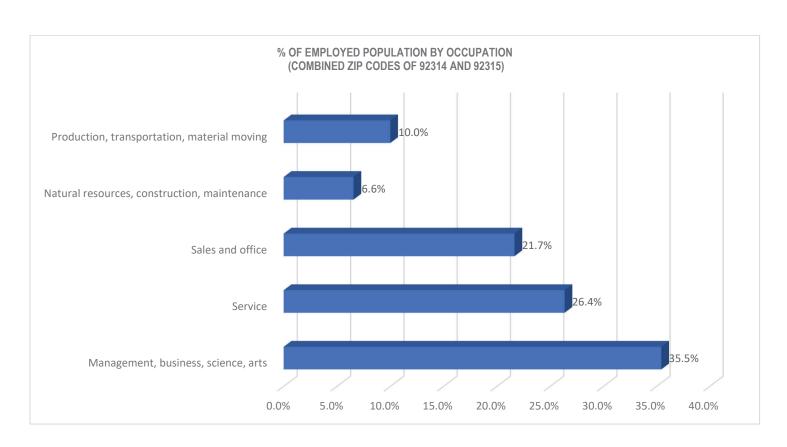

Year	City of Big Bear Lake	Big Bear City
2022	3.4%	4.6%

² Net Revenues are defined as operating revenue plus interest income plus proceeds from the sale of assets plus other income plus connection fee revenue less operating and maintenance expense. Net Revenues are net of GASB 68 and 75 adjustments. These adjustments were material in 2022 and 2023.

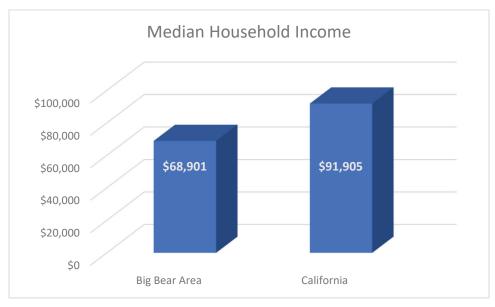

³ Debt service is calculated on accrual basis for both principal and interest and may not agree with the basic financial statements.

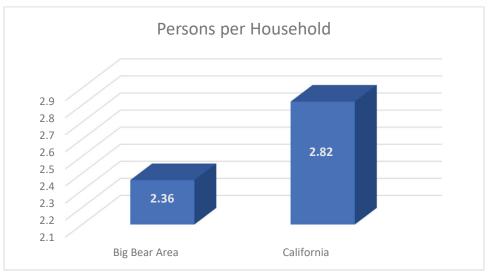

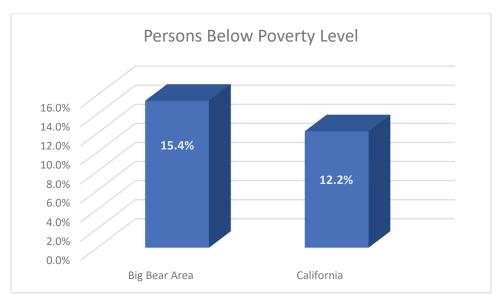

BIG BEAR AREA¹ COMPARISON TO STATE OF CALIFORNIA

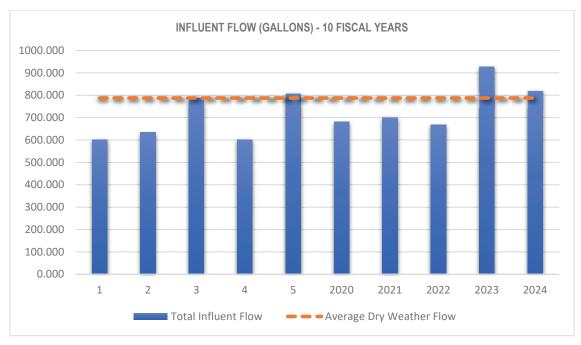

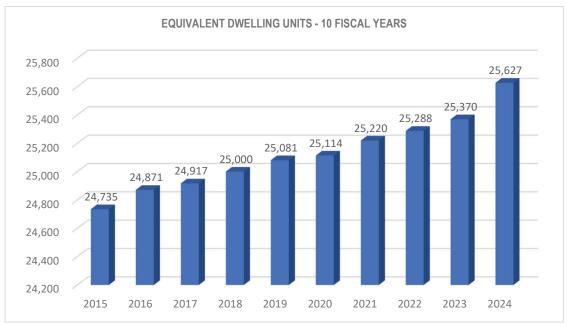

Operating Information

System Demand (annual influent flow)

The Agency's wastewater flows are primarily impacted by 1) wet weather which creates infiltration and inflow into the system, and 2) peak tourist periods. Otherwise, the Agency's wastewater flows are fairly predictable due to the mature and stable commercial and residential housing markets in the area. The long-term average annual growth in equivalent dwelling units is below 1.0%. It is important to note that seven periods in the last ten years have been below the Agency's long-term average dry weather flow of 788 million gallons due to drought conditions.

¹ Includes the zip code areas of 92314 and 92315.

AGENCY STAFFING BY DEPARTMENT¹

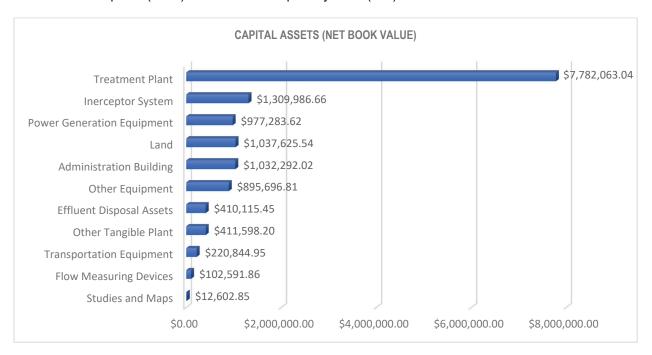

Year	Administration	Operations	Laboratory	Total
2015	3.5	9.5	2.0	15.0
2016	3.5	10.5	1.0	15.0
2017	3.5	10.5	1.0	15.0
2018	3.5	10.5	1.0	15.0
2019	4.5	9.5	1.0	15.0
2020	4.5	9.5	1.0	15.0
2021	4.0	10.5	1.0	15.5
2022	4.0	10.5	1.0	15.5
2023	4.0	9.0	1.0	14.0
2024	4.0	8.0	2.0	14.0

¹Full-time regular employees are assigned a 1.0. Part-time (regular, not full-time) and non-regular (seasonal, temporary) are assigned a 0.5, although hours worked and compensation are not equivalent, i.e., part-time employees may receive full benefits and non-regular employees may not receive benefits. Staffing levels are as of June 30 of the respective fiscal year.

Nature of Capital Assets and Capacity Utilization

The concentration of the Agency's assets directly reflects its operations with the largest investments in the wastewater treatment plant (55%) and the interceptor system (9%).

KEY ASSETS				
Treatment Plant Interceptor System				
Clarifiers	3	Miles of Pipeline	15.07	
Covered Drying Bed	1	Manholes	93	
Oxidation Ditches	3	Air Release Vents	12	
Storage Ponds	4	Lift Stations	4	

The Agency's facilities and processes have excess capacity due to the demographics of the area served. While there are approximately 21,000 residential sewer connections, the Agency estimates that only 38% or 7,980 connections reside in the Big Bear area full-time. The Agency's facilities were built to meet some of the demands associated with an increase in full-time occupancy. Historical data is not available.

CAPACITY UTILIZATION BY STRUCTURE

	<u>Capacity</u> <u>MGD</u>	<u>Utilization</u> <u>MGD</u>	<u>Utilization</u> <u>Rate</u>
Effluent Pumping	5.6	2.4	43%

Big Bear Area Regional Wastewater Agency

Jim Miller –Chair Rick Herrick – Vice-Chair John Russo - Director Kendi Segovia – Director Larry Walsh – Director

AGENDA ITEM: 6.A.

MEETING DATE: October 23, 2024

TO: Governing Board of the Big Bear Area Regional Wastewater Agency

FROM: David Lawrence, P.E., General Manager

REVIEWED BY: Christine Bennett, Finance Manager; John Shimmin, Plant Manager;

Bridgette Burton, Administrative Services Manager/Board Secretary

SUBJECT: General Manager's Report

DISCUSSION:

Administration

Big Bear Valley Education Trust Real World Project

On September 25, 2024, David Lawrence and Bridgette Burton were guest speakers for the Big Bear Valley Education Trust Real World Project. This Project aims to expand the career horizons of juniors and seniors at Big Bear High School and features professionals who share authentic stories about how they arrived at their career choices. Students actively engage in discussions and activities facilitated by guest speakers, providing them with insights into various career paths beyond traditional academic routes.

Lucerne Valley Solar Panels (no update)

This process is underway.

Operations

LPS Generator & Fuel System Project

This Project is complete.

Force Main Project

The first phase of this Project is tentatively scheduled for rebid in Spring 2025 with construction in Fall 2025.

2024 Treatment Plant Data

The influent flow (MG) chart is attached.

Flow Percentages					
Member Agency	<u>July</u>	<u>August</u>	<u>September</u>

DSD Solar Definitions

kilowatt-hour (kWh): The primary SI unit that quantifies absolute power generation generated during a specific duration (24 hours)

Global Horizontal Irradiance (GHI): The solar radiation that reaches a horizontal surface on Earth per unit area (W/m2)

Weather Adjusted Generation: PV systems depend on both system quality and the weather (i.e. available GHI, temperature).

A weather-adjusted production estimate is intended to give results more aligned with real production, which varies throughout the year given it's high dependence on environmental factors.

Availability (%): Characterizes the percentage of the system that is available for production.

Performance Ratio (PR): The ratio of real, measured production to the expected production for a given reporting period.

BIG BEAR AREA REGIONAL WASTEWATER AGENCY

Regular Board Meeting Minutes September 25, 2024

1. <u>CALL TO ORDER</u>

A Regular Meeting of the Governing Board of the Big Bear Area Regional Wastewater Agency was called to order by Chair Miller at 5:00 p.m. on September 25, 2024 at 121 Palomino Drive, Big Bear City, California.

BOARD MEMBERS PRESENT

Jim Miller, Chair Rick Herrick, Vice-Chair John Russo, Director Kendi Segovia, Director Larry Walsh, Director

BOARD MEMBERS ABSENT

None

STAFF MEMBERS PRESENT

David Lawrence, General Manager Christine Bennett, Finance Manager Bridgette Burton, Administrative Services Manager/Board Secretary Sonja Kawa, Human Resources Coordinator/Accounting Technician

OTHERS

Members of the public who signed in included:

Joyce Crist, Big Bear City

Christine Smith, Big Bear City

2. PLEDGE OF ALLEGIANCE

Director Segovia

3. <u>APPROVAL OF AGENDA</u>

Upon motion by Vice-Chair Herrick, seconded by Director Russo and carried, the Governing Board approved the agenda as presented.

Ayes: Herrick, Russo, Segovia, Walsh, Miller

Noes: None Absent: None Abstain: None

4. **PUBLIC FORUM**

Tom Sitton spoke about the upcoming election of City Council members and the potential continuation of Replenish Big Bear by the City of Big Bear Lake and BBARWA.

Daniel Gulbranson spoke about City of Big Bear Lake business and notified the Agency of upcoming FOIA requests.

Joyce Crist expressed opposition to Replenish Big Bear and emphasized that the City of Big Bear Lake has no jurisdiction over Big Bear City.

David Ybarra commented on dismissive reactions during meetings and the public's desire for Replenish Big Bear to come to an end.

5. PRESENTATION AND INTRODUCTION

None

6. <u>INFORMATION/COMMITTEE REPORTS</u>

6.A. General Manager's Report

The General Manager briefed the Governing Board on the status of the Lucerne Valley Solar and LPS Generator and Fuel System projects.

7. CONSENT CALENDAR APPROVED ITEMS

- **7.A.** Meeting Minutes from the July 24, 2024 Regular Meeting and August 12, 2024 Special Meeting
- **7.B.** Monthly Disbursements Report for July and August
- **7.C.** Investment Report Identifying Agency Investments and Reporting Interest Income for July and August
- **7.D.** Resolution No. R. 10-2024, A Resolution of the Governing Board of the Big Bear Area Regional Wastewater Agency Adopting the Annual Statement of Investment Policy
- **7.E.** Carryover Appropriations

Upon motion by Director Russo seconded by Chair Miller and carried, the Governing Board approved the Consent Calendar as presented.

Ayes: Herrick, Russo, Segovia, Walsh, Miller

Noes: None Absent: None Abstain: None

8. <u>ITEMS REMOVED FROM CONSENT CALENDAR</u>

None

9. OLD BUSINESS

None

10. <u>NEW BUSINESS – DISCUSSION/ACTION ITEMS</u>

10.A. General Manager Employment Agreement Amendment

The Human Resources Coordinator detailed the revised terms of the General Manager's employment agreement.

The Chair read the following into the record as required by the Brown Act: The General Manager's base salary will be \$21,273.79 per month (equivalent to an hourly rate of \$122.73). This reflects a 3.3% increase effective on April 20, 2024, which is the first day of the pay period encompassing Mr. Lawrence's employment anniversary date of April 25, 2024.

Daniel Gulbranson commented about the City of Big Bear Lake and expressed his satisfaction that the Grizzly Newspaper will publish the truth.

Joyce Crist expressed concern over funds being spent on Replenish Big Bear and the General Manager's performance.

Dennis Largé thanked the General Manager and commented about the General Manager's performance.

Upon motion by Vice-Chair Herrick, seconded by Chair Miller and carried, the Governing Board authorized the Governing Board Chair to execute an Employment Agreement Amendment with the approved changes.

Ayes: Herrick, Russo, Segovia, Walsh, Miller

Noes: None Absent: None Abstain: None

10.B. Canon Copier Lease Agreement

The Board Secretary explained the need to lease a new copier and terms of the lease agreement.

The Governing Board discussed acquiring several smaller copiers to reduce the cost.

Daniel Gulbranson commented about the City of Big Bear Lake and Item 10.A.

Upon motion by Vice-Chair Herrick, seconded by Director Russo and carried, the Governing Board authorized the General Manager to enter into a lease agreement between the Agency and Canon for a term of five years.

Ayes: Herrick, Russo, Segovia, Walsh, Miller

Noes: None Absent: None Abstain: None

10.C. Reject All Bids for the Force Main Project and Re-Bid the Project

The General Manager recommended rejecting all bids and rebid the Force Main Project at a later date.

The Governing Board asked about the location of RE Chaffee and how the \$1.3 million was estimated.

Joyce Crist expressed her concerns about spending money on pipelines and solar facilities, questioning why the community is responsible for covering these costs.

Daniel Gulbranson noted that money is being spent on solar, but he doesn't see any revenue being generated from electricity.

Upon motion by Chair Miller, seconded by Vice-Chair Herrick and carried, the Governing Board authorized the General Manager to reject all bids received for the Force Main Project and direct the General Manager to re-bid the Project with a reduced scope of work; directed the General Manager to engage Water Systems Consulting, Inc. for additional engineering services for the Force Main Project in the amount of \$48,000; and directed the General Manager to negotiate and award a contract to the lowest responsive and responsible bidder for the Force Main Project, not to exceed \$1,269,645.

Ayes: Herrick, Russo, Segovia, Walsh, Miller

Noes: None Absent: None Abstain: None

11. COMMENTS AND ANNOUNCEMENTS

11.A. General Manager Comments

None

11.B. Governing Board Member Comments

The Governing Board asked for an update on Replenish Big Bear grants and inquired why the item needs to be presented again to the Board.

Big Bear Area Regional Wastewater Agency Regular Board Meeting Minutes September 25, 2024 Page 5 of 5

12. ADJOURNMENT

With no further business to come before the Governing Board, Chair Miller adjourned the meeting at 5:40 p.m.

ATTEST:	
	Bridgette Burton, Secretary to the Governing Board
	Big Bear Area Regional Wastewater Agency

Big Bear Area Regional Wastewater Agency

Jim Miller –Chair Rick Herrick – Vice-Chair John Russo - Director Kendi Segovia – Director Larry Walsh – Director

AGENDA ITEM: 7.B.

MEETING DATE: October 23, 2024

TO: Governing Board of the Big Bear Area Regional Wastewater Agency

FROM: David Lawrence, P.E., General Manager

PREPARED BY: Christine Bennett, Finance Manager

SUBJECT: Monthly Disbursements Report

BACKGROUND:

Attached is the Agency's September check register which reflects accounts paid during that period.

FINANCIAL IMPACT:

There is no financial impact. The funds have previously been appropriated.

RECOMMENDATION:

Informational

TOTAL	\$ 9,888,118	\$ 9,851,691	\$ 381,441		

The Investment Portfolio of the Big Bear Area Regional Wastewater Agency is in compliance with the investment policy approved in August 2023. The Agency will be able to meet its expenditure requirements for the next six months.

(1) LOCAL AGENCY INVESTMENT FUND (LAIF) IS A STATE-RUN INVESTMENT POOL PROVIDED FOR PUBLIC AGENCIES. THE LAIF MARKET VALUE SHOWN ON THIS TREASURER'S REPORT REPRESENTS BBARWA'S SHARE OF THE **LIQUID VALUE** OF LAIF'S PORTFOLIO IF IT WAS LIQUIDATED AS OF THE END OF THE REPORTED MONTH. THIS NUMBER SERVES AS AN INDICATOR OF WHETHER OR NOT THE **MARKET VALUE** OF LAIF'S INVESTMENTS IS ABOVE OR BELOW THE **COST** OF THOSE INVESTMENTS.

(2) Interest paid quarterly on LAIF investment. Amount reflects interest income received at the reporting date during FY 2024 and excludes accrued interest.

AGENDA ITEM: 10.A.

MEETING DATE: October 23, 2024

TO: Governing Board of the Big Bear Area Regional Wastewater Agency

FROM: David Lawrence, P.E., General Manager

PREPARED BY: Christine Bennett, Finance Manager

SUBJECT: Annual Report for the Fiscal Year Ended June 30, 2024

BACKGROUND & DISCUSSION:

Please find attached the Annual Report, which discusses FY 2024 financial performance compared to budget.

The Agency ended FY 2024 below the budget with lower operating and capital expenditures as well as higher net nonoperating income/expenses resulting in a higher cash position. The Agency's operating expenses were below the budget by \$429,535 or 7% including Government Accounting Standards Board (GASB) adjustments related to pension and Other Post Employment Benefits (OPEB) expense. Lower operating expenses resulted from lower costs across multiple line items, with the largest variances occurring in power, sludge removal, materials and supplies, repairs and replacement, and contractual services professional. Capital expenditures were below the budget by approximately \$3.8 million. This variance was largely due to timing.

As of June 30, 2024, the Agency is financially strong with current debt service coverage of 6.44x (excluding GASB adjustments), excess debt capacity, and adequate funding to meet its reserve balance targets.

FINANCIAL IMPACT:

There is no financial impact.

Discussion and Analysis

FY 2024 Budget Revisions

During the year, the Agency modified its budget to include carryover appropriations from the prior year and new appropriations during the current year. Carryover appropriations are those expenditures that were budgeted but not spent by fiscal year end and are carried over to the next year or budget cycle. The budget referenced in all subsequent tables and charts reflects the final budget taking into account the appropriations.

FY 2024 Appropriations

	Appropriations

Total Appropriations	\$	3,078,894	\$	128,357	\$:	3,207,251

Operating Revenues

Operating revenues were greater than the budget by \$6,628, less than 1%, due largely to an increase in other operating income which included an insurance claim reimbursement and energy credits. This was partially offset by the reclassification of rental income to nonoperating lease revenue during the period. The reclassification was related to GASB 87 (General Accounting Standards Board guidance requiring the recognition of lease assets and lease liabilities).

			Actual Budget	Actual vs Budget
	Actual	Budget	\$	%
Operating revenues:				
Annual charges	\$ 7,671,036	\$ 7,671,077	\$ (41)	0%

⁽a) nm = not meaningful and is the result when dividing by 0.

Operating Expenses

Operating expenses were below the budget by \$429,536 or 7% with variances across multiple line items. Variances greater than 10% and \$20,000 are highlighted below and discussed on the next page.

			Actual	Actual	
			vs Budget	vs Budget	
	Actual	Budget	\$	%	
Operating expenses:					
Salaries and benefits	2,944,982	2,958,007	(13,025)	0%	
Power	442,662	499,429	(56,767)	-11%	
Sludge Removal	291,833	336,212	(44,379)	-13%

Materials and supplies	142,604	175,989	(33,385)	-19%	
Repairs and Replacements	148,728	305,850	(157,122)	-51%	
Equipment rental	950	912	38	4%	
Utilities expense	28,578	37,000	(8,422)	-23%	
Communications expense	65,148	72,644	(7,496)	-10%	
Contractual services - other	153,562	154,321	(759)	0%	
Contractual services - prof	154,403	189,027	(34,624)	-18%	
Permits and fees	254,556	259,973	(5,417)	-2%	
Property tax expense	4,196	4,124	72	2%	
Insurance expense	229,000	240,678	(11,678)	-5%	
Other operating expense	46,038	59,826	(13,788)	-23%	
Depreciation expense	858,504	901,809	(43,305)	- <u>5</u> %	
Total operating expenses	5,861,345	6,290,881	(429,536)	-7%	

<u>Power</u> expense was lower than the budget by \$56,767 or 11% which is mainly a result of higher production of solar power resulting in a decrease in electricity costs for the treatment plant and administration building. Electricity costs are budgeted based on an average. Solar production came online in December of Fiscal Year 2022. As more data is available, the budget for solar purchases and electricity will adjust.

<u>Sludge Removal</u> expense was below the budget by \$44,379 or 13%. Sludge removal was budgeted based on removing 4,989 tons; however, actual tons hauled was 4,413, a reduction of 576 tons for the year-to-date period.

<u>Materials and Supplies</u> expense was below the budget by \$33,385 or 19%. The largest variance was in office supplies. Lower subscription costs and computer equipment replacements that were budgeted and not replaced account for the variances in office supplies. Additionally, oil, antifreeze, and filter costs were lower but were partially offset by an increase in purchases of tools and equipment.

Repairs and Replacements expense was below budget by \$157,122 or 51% due partially to timing associated with multiple repairs and replacements such as the treatment plant door replacements. Additionally, several completed projects were moved to capital for accounting purposes. Those projects were the force main access point and repair, two pump rebuilds, and repairs to a rotor in oxidation ditch 2. When adding these projects back, repairs and replacements expense was below budget by \$37,757 or 12%.

<u>Contractual Services - Professional</u> expense was below budget by \$34,624 or 18%. The lower expense was driven by lower legal expenses.

Nonoperating Income (Expense)

Nonoperating income (expense) had a positive variance of \$2,360,295 compared to the budget and was driven by much higher non-operating income, greater by \$2,196,229 due mostly to grant reimbursements related to Replenish Big Bear and higher interest income than budgeted. Nonoperating expense was lower than budget by \$164,066. This was primarily due to finance charges that were budgeted for Replenish Big Bear that were unused.

			Actual vs. Budget	Actual vs. Budget
	Actual	Budget	\$	%
Nonoperating income (expense):				
Nonoperating income	\$ 2,322,624	\$ 126,395	\$ 2,196,229	1738%
Nonoperating expense	 (237,231)	 (401,297)	\$ 164,066	<u>+</u> (a)
Total nonoperating income (exp)	\$ 2,085,393	\$ (274,902)	\$ 2,360,295	+ (a)

⁽a) Percent change is not provided if either of the comparison periods contains a loss or negative number. If the actual performance is improved when compared to the budget a "+" is given. If the actual performance is worse when compared to the budget, a "-" is given.

Capital Contributions (Connection Fees) and Net Income (Change in Net Assets)

Income before capital contributions was ahead of the budget by \$2,796,458 for the period primarily due to a positive variance in net nonoperating income (expense) of \$2,360,295 and lower operating expenses of \$429,536. Connection fees were higher than the budget by \$305,140 or 162% due to

higher connections which included 62 connections for a new hotel. Connections were 118 compared to 45 budgeted, higher by 73 for the year.

					YTD Actual	YTD Actual
		YTD		YTD	vs Budget	vs Budget
		Actual		Budget	\$	%
Income before capital contributions	\$	4,053,788	\$	1,257,330	\$ 2,796,458	222%
Capital contrib - conn fees	<u> </u>	493,240	<u> </u>	188,100	\$ 305,140	162%
Net Income, Change in net assets	\$	4,547,028	\$	1,445,430	\$ 3,101,598	215%

⁽a) nm = not meaningful and is the result when dividing by 0.

Capital Expenditures

Capital expenditures for the period were approximately \$4.1 million, below budget by approximately \$3.8 million. The variance was largely due to timing associated with multiple projects.

Cash and Fund Balances

The Agency had positive cash flow of \$712,185 compared to negative cash flow of approximately \$1.6 million budgeted for the period. Higher cash flow compared to the budget was due to 1) lower operating expenses and capital expenditures including Replenish Big Bear and 2) higher net nonoperating income/expense, and higher connection fee revenue.

Big Bear Area Regional Wastewater Agency

Jim Miller –Chair Rick Herrick – Vice-Chair John Russo - Director Kendi Segovia – Director Larry Walsh – Director

AGENDA ITEM: 10.B.

MEETING DATE: October 23, 2024

TO: Governing Board of the Big Bear Area Regional Wastewater Agency

FROM: David Lawrence, P.E., General Manager

REVIEWED BY: John Shimmin, Plant Manager

SUBJECT: Reallocate \$125,000 from the Capital Budget for the OAC Roof Project

BACKGROUND & DISCUSSION:

The OAC roof has exceeded its useful lifespan and needs replacement. Originally, the OAC Roof Project was budgeted for \$79,105 in Fiscal Year 2025; however, in August 2024, those funds were reallocated to the Force Main Project. Construction of the Force Main Project has been postponed until Fall 2025 (or Fiscal Year 2026) when flows from the City of Big Bear Lake are typically at their lowest. The funds previously allocated to the Force Main Project can be reallocated back to the OAC Roof Project. Staff is requesting an additional reallocation of \$33,395 to cover the anticipated increase in construction costs since the original budget was created, along with a contingency of \$12,500. Construction of the Force Main Project will be programmed in the FY 2026 budget.

The revised Project budget is as follows:

Description	Amount
OAC Roof Construction	\$112,500
Contingency	12,500
Total	\$125,000

FINANCIAL IMPACT:

There is no financial impact anticipated. Funds will be reallocated from the Force Main Project. Funds for the construction of the Force Main Project will be programmed in the FY 2026 budget.

RECOMMENDATION:

Appropriate \$125,000 from the Capital Budget for the OAC Roof Project.

Big Bear Area Regional Wastewater Agency

Jim Miller –Chair Rick Herrick – Vice-Chair John Russo - Director Kendi Segovia – Director Larry Walsh – Director

AGENDA ITEM: 10.C.

MEETING DATE: October 23, 2024

TO: Governing Board of the Big Bear Area Regional Wastewater Agency

FROM: David Lawrence, P.E., General Manager

PREPARED BY: Bridgette Burton, Administrative Services Manager/Board Secretary

SUBJECT: Adjourn the November 27th and December 25th 2024 Regular Board

Meetings and Schedule a Special Meeting

BACKGROUND & DISCUSSION:

The Agency historically adjourns the November and December Regular Board Meetings due to the proximity of the holidays. At this time, it is appropriate for the Governing Board to consider formally adjourning these meetings and schedule a Special Meeting during December, at a time convenient for the Governing Board.

FINANCIAL IMPACT:

There is no financial impact.

RECOMMENDATION:

Adjourn the November 27th and December 25th 2024 Regular Board Meetings and Schedule a Special Meeting.
